

Extraordinary opportunities for semiconductor professionals...

Do you wish to be an IC Designer & Entrepreneur in the microelectronic industry?

IC Microsystems Sdn Bhd (ICmic) is a leading IC Design Company in Malaysia with a portfolio of over 80 Integrated Circuit products and a global customer base. There are several openings for committed semiconductor professionals to be trained as IC Design Engineer.

This is a unique opportunity to work for a leading IC Design Company. If selected for the position, you will be:

- Able to pursue Masters of Engineering to be awarded by partnering universities through research conducted at ICmic-UniKL Academy
- Considered in the equity participation in future spin-off or start-up companies

Eligible successful candidates will be assisted to apply for MARA's Loan Sponsorship in the Master of Engineering program which covers fees and monthly allowance.

Requirements:

- Bachelor in Electronic Engineering or related fields with cumulative GPA of 3.00 or above
- 1 - 3 years' working experience in the semiconductor industry (including IC testing, packaging, QA, product engineering, design or related fields)
- Successful registration into Masters of Engineering program which will be awarded by partnering universities

If you are interested, please send your resume to hr@icmic.com before 30 November 2007 or log on to www.icmic.com for more Company information.
