

ILSCOM™

ILSCO COMMUNICATIONS
Bonding, Grounding & Shielding Products

ILSCO
connections
matter

From the industry's best and most complete Irreversible Grounding* System to our superior copper and aluminum SureCrimp® compression connectors, ILSCO offers solutions to bond, ground and shield your critical communications infrastructure.

** ILSCO's Irreversible Grounding System is NEC250 compliant. Components are Listed to UL467, CSA Certified and can be easily installed using standard compression tooling and dies.*

ON-SITE POWER

ILSCO products include:

- Bus and Ground Bars
- Compression Connectors
- Ground Rod Connectivity
- Battery Connectivity
- Custom Cable Jumper Assemblies
- Irreversible Grounding for Network
- Flexible Braid Components

SURECRIMP®

- Above ground applications
- UL 467 500 kcmil - 8 AWG; solid wire #8 - #2
- Meets NEBS Level 3 requirements

BUS BAR

- Custom designed and manufactured to your specifications and requirements

FLEXIBLE BRAID

- Multi-purpose use for bonding, grounding and connecting moving parts

TWCT

- Connects ground wire to main ground run

ILCB-12-LIO

- For use with copper or aluminum compression and irreversible grounding connectors

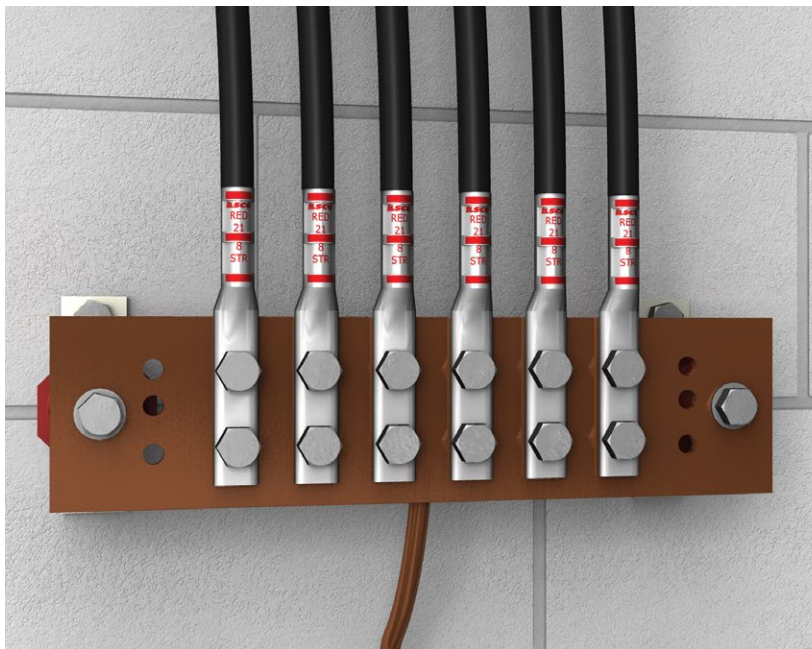

ELT

- Connects main and tap up to 500 kcmil

BASE STATION SITE GROUNDING

ILSCO products include:

- Braid
- Bus Bars
- Mechanical Grounding
- Irreversible Grounding System
 - Compression Grounding
 - C Taps
 - CGP
 - ELT
 - GGA
 - GGB
 - GGC
 - CDT, CST (H-TAP)
 - RLT
 - SGS
 - SURECRIMP
Copper Compression
 - TWCT
 - ULT

WIRELESS TOWER SHELTER ENTRY

ILSCO products include:

- Bus and Ground Bar
- Compression Connectors
- Ground Rod Connectivity
