

Established in 1994, Interplex S.E.A offers services as a custom manufacturer of high precision metal stamping, continuous reel-to-reel electrolytic plating, insert molding, packaging and sub-assembly; allowing the company to service its customer's needs for a one-stop solution with vertically integrated capabilities.

## APPLICATIONS:

- Connector Terminals
- Clips and Brackets
- EMI / RFI Shields
- Contact Pins
- Battery and Spring Contacts
- Internal Antenna
- LCD Display Bezel
- Switches
- Sensors
- Pressfit (Junction Box)
- Micro-Electro-Mechanical-System (MEMS)
- LED

## INDUSTRIES SERVED:

- Consumer Electronics
- Industrial & Commercial
- Telecommunications
- Automotive
- Medical & Healthcare

## VALUE-ADD SERVICES:

- Engineering and Co-design
- Quick Prototyping
- Custom Die Design and Tool Fabrication
- Metal Stamping
- Reel-to-reel overall and selective Plating
- Conventional Molding
- Insert Molding

## QUALITY CERTIFICATION:

ISO 9001

BUREAU VERITAS  
Certification

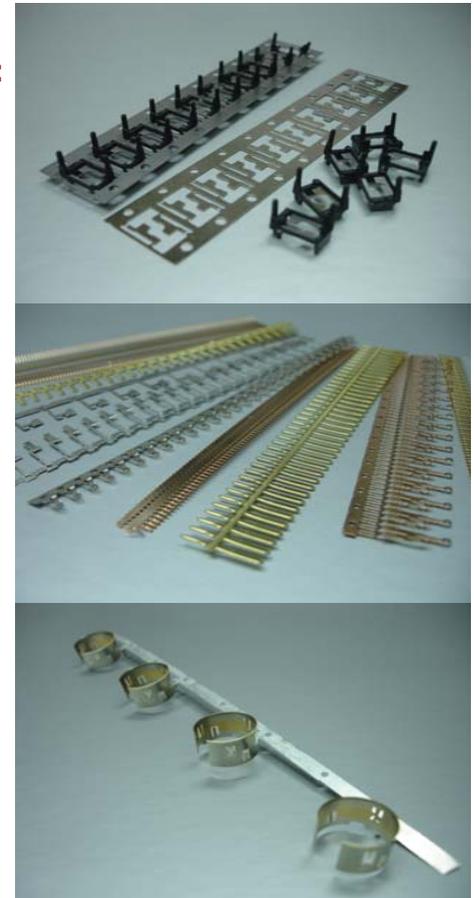

ISO 14001

BUREAU VERITAS  
Certification

ISO/TS 16949

BUREAU VERITAS  
Certification

## FAST FACTS:

- Plant size: 44,000 sq feet of combine manufacturing space
- Total solutions from Engineering to Finished Product

## DIRECTION TO INTERPLEX S.E.A:

Singapore & Malaysia are located in the tropical region with good weather all year round, well developed infrastructure and has a strong base of skilled engineers and toolmakers.

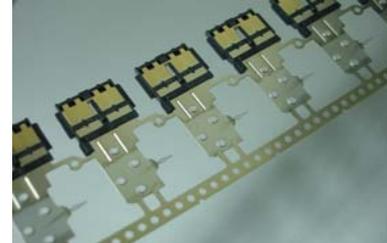

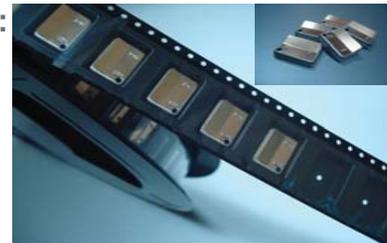

Interplex Singapore is located in the western end of Singapore, a convenient 30 minutes by road from the Changi International Airport.

Interplex Electronics Malaysia is only an hour flight away from Singapore and it is located 15 minutes drive away from Penang International Airport.

Due to its cultural diversity and multi-racial profile, both locations are able to schedule work throughout the year without any major stoppages.

## INTERPLEX S.E.A SUMMARY OF SERVICES:

- Prototypes: In-house design and manufacture of prototype tooling for stamped and plated components as well as low volume runs.
- Stamping: Die design, manufacture and run of high speed progressive dies for low to high volume.
- Plating: Continuous reel-to-reel electrolytic plating with overall as well as selective plating.
- Tape and Reel Packaging: In-house tape and reel packaging.
- Insert Molding: Interplex Singapore together with Interplex Electronics Malaysia provides a total solution for customers requiring stamping, plating and insert molding.
