

JFW Industries

Specialists in Attenuation and RF Switching

New! 0.5-18.0 GHz Solid-State RF Switch

The 50S-1720 (1P2T), 50S-1721 (1P4T) and 50S-1722 (1P8T) are JFW's newest line of PIN diode RF switches. They boast an operating frequency from 0.5-18GHz, 50dB minimum isolation at 18 GHz and a maximum switching speed of 100 nanoseconds. Their compact, self-terminating design makes them perfect for OEM and test applications where reliability, speed, or bandwidth is critical. SMA female connectors and TTL control are standard, but other configurations may be available upon request. For more information, please visit us at www.jfwindustries.com.
