

Product	Branch of Industry	Application	Short Description of the Application	Application-related Search Terms for the Internet
Castello	Industry	Fluid level measurement	Measures the fluid level in tanks	Tank content, tank monitoring, tank level calculation, tank calculation
dV-1	Measurement and test engineering	Pressure measurement of mattresses	Measures the air cushion pressure of mattresses.	Miniature manometer, pressure meter, air cushion, pressure measurement of mattresses
dV-1	Measurement and test engineering	Injection pressure measurement	Measures the injection pressure (dV-1 integrated in the pistol grip)	Injection pressure, miniature manometer, mountable, digital display
dV-2	Hydraulics, pneumatics	Gas spring pressure monitoring	Monitoring the gas spring pressure	Gas spring pressure, pressure monitoring, pneumatic cylinder, air cylinder
dV-2	Medicine, surgery	Force monitoring, pressure monitoring	Prevents too strong elongation of the spinal column during surgery	Medical technology, force measurements via pistons, force monitoring
dV-2	Medical technology	Oxygen tank pressure monitoring	Instruments for monitoring the oxygen bottle pressure	Oxygen bottles, manometer with oxygen certification, compressors
dV-2	Measurement and test engineering	Pressure measurement in injection moulding	Instrument measures coolant pressure	Injection mould, injection moulding, coolant, coolant pressure, cooling
dV-2	Measurement and test engineering	Determination of the CO2-content	Calculates from pressure and temperature the CO2-content in liquids	CO2-content, CO2-testert, CO2-content measurement
dV-2	Measurement and test engineering	Residual moisture measurement	Measures the residual moisture in concrete floors	Residual moisture content, Calcium-carbide-method, residual moisture measurement
ECO 1	Measurement and test engineering	Oxygen tank pressure monitoring	Pressure monitoring when bottling oxygen tanks (scuba-diving)	Test engineering, filling systems, partial pressure method, mixed gas
GSM-2	Water management	Measurement of water level	Measurement of water level and water quality; data transfer via GSM	Water pressure monitoring via GSM, hydrostatic pressure, GIS, water level
GSM-2	Water management	Monitoring of boreholes	Monitoring GSM-switch on manhole cover	Borehole, boreholes, level probe, level probes, water level
Catheter	Medical technology	Sleep laboratory (sleep apneas)	Monitoring breathing stops	Apnoea, apneas, gas volume, gas exchange, respiratory paralysis
LEO 1	Hydraulics	High pressure monitoring	Measurement and display of pressure on a hydraulic high pressure pump	Hydraulics, high pressure, hydraulic pump
LEO 1	Hydraulics	Hydraulic service tool	Measuring hydraulic pressure and direct display in hydraulic systems	Compressors, hydraulic systems, drilling equipment, rock drill
LEO 1	Measurement and test engineering	Calibration case	Calibration of measuring instruments	Pressure calibrator, calibrators, calibration, test equipment
LEO 1	Food industry	PET-bottle control	Burst pressure measurement of PET-bottles	PET, PET-bottles, burst pressure, burst pressure measurement
LEO 2	Measurement and test engineering	Hydraulic scales	Hydraulic scales	Scales, hydraulic scales, test facilities
LEO 2	Measurement and test engineering	Clamping chuck pressure measurement	Measures the force of the hydro chuck and the engine rpm	Pressure transfer, force measurement, chuck, clamping chuck pressure, hydraulic chuck
LEO 3	Measurement and test engineering	Measurement and display of gas pressure	Measurement and display of gas pressure	Digital transmitter with display, gas pressure, pressure regulator, gas supply
LEO Record	Plant engineering	Leakage tests of beer tanks	Pressure measurement to control the tightness of beer tanks	Beer tanks, tanks, tank trucks, silos, leakage test
LEO Record	Water management	Water and gas pipeline network analysis	Optimization of the supply network	Water supply, water supply network, supply pressure, pressure logger
LEO Record Ei	Chemical industry	Gas pressure	Measurement of gas pressure	Gas pressure, gas pressure cylinder, gas pressure regulator
Mano (spez.)	Chemical industry	Monitoring gas cylinders	Gas content determination in gas cylinders	Measuring and control technology, spezial gases, liquid gas
Mano (spez.)	Beverage industry	Determination of CO2-content	Determination of CO2-content in beverages	Beverage industry, density measurement, CO2-measuring systems
Series 2	Chip manufacturing	Vacuum pumps	Vacuum measurement sensors	Vacuum, vacuum measurement, vacuum pumpes, vacuum technology
Series 2	Medical technology	Joints, hand prostheses	Coordinates the mobility of the joints, the grip power of hand prostheses	Prostheses, miniature hydraulic pump, hydraulic systems, tank liquid
Series 2	Medical technology	Gas control	Monitoring and controlling of gas supply during anesthetization	Anesthetization systems, gas pressure, monitoring, gas control
Series 2 Mi	Industry	Miniature pressure sensors	Pressure measurement, flow measurements	Miniature pressure sensors, flow measurements, flow meter
Series 3 L	Animal species research	Monitoringof animals	Species protection of eagles, wales...	Migration monitoring, migratory behaviour, fish migrations
Series 3 Mi	Food industry	Temperature measurement	Temperature measurement in microwaves	Temperature measurement, food industry, oxygen measuring devices
Series 4	Process automation	Pneumatic valves	Control of pneumatic devices	Pneumatics, air-driven, air pressure, pressure regulator
Series 4 (PD)	Chip manufacturing	Vacuum pumps	Sensors for vacuum measurement	Vacuum, vacuum measurement, vacuum pumps, vacuum technology
Series 4 L	Automotive industry	Monitoring the injection pressure	Installation in manometers to adjust the injection pressures in sprayguns	Painting industry, sprayguns, spray guns, injection pressure
Series 4 L	Concrete working industries	Infusions	Application in concrete pumps	Concrete working industries, concrete fabrication
Series 4 L	Medical technology	Human joints	Sensors for the mobility of joints, prostheses	Prostheses, miniature hydraulic pump, hydraulic systems, tank liquid
Series 5	Meteorology	Barometric measurements	Barometric measurements	Meteorology, barometric pressure, weather station, barometric measurements
Series 6 M	Medical technology	Pressure monitoring	Abdomen inflation systems for surgery	Insufflators, medical pressures, OP-systems, arthroscopy, pump systems
Series 6 M	Sports	Diving	Pressure monitoring in diving tanks	OEM, diving tanks, diving computer, bottle pressure, depth meter
Series 7	Measurement and test engineering	Production of data loggers	Production of data loggers	Data logger, measuring values, autonomous data logger, level probe
Series 7	Measuring and control technology	Valve control	Control of liquid and gaseous media	Proportional pressure control valve, pressure regulation, intelligent valve
Series 7	Measuring and control technology	Valve control	Control of liquid and gaseous media	Control valves, switching valves, flow control valves
Series 7 L	Concrete working industries	Infusions	Application in concrete spray pumps	Concrete spray pumps, concrete working industries, concrete fabrication
Series 7 L	Aviation industry	Cabin pressure	Monitors the cabin pressure (oxygen masks)	Oxygen supply, cabin pressure, air pressure, oxygen masks
Series 7 L	Monitoring of food	Logger for air pressure and temperature	Proof for uninterrupted cooling chain i.e. for bananas, meat...	Food monitoring, portable measuring instruments, pressure logger

Series 7 L X	Medical technology	Human joints	Sensors for the mobility of joints, prostheses	Prostheses, miniature hydraulic pump, hydraulic systems, tank liquid
Series 7 LX (PD)	Aviation industry	Hydraulic oil pressure	Monitors the turbine pressure generation for aviation hydraulics	Hydraulics, oil pressure, turbine, turboprop, propeller, manifold of turbines
Series 7 S	Process automation	Pneumatic valves	Control of pneumatic devices	Pneumatics, air-driven, air pressure, pressure valve, pneumatic valves
Series 8	Measurement and test engineering	Fuel analysis	Measurement of biodiesel in diesel	biodiesel content measurement, fuel analysis, fuel measurement devices
Series 8	Measuring and control technology	Valve control	Control of liquid and gaseous media	Control valves, switching valves, pressure regulator, intelligent valve
Series 8	Oil and natural gas industry	Oil production, drilling technology	Pressure and temperature measurement	Drilling technology, oil production, oil exploration, borehole, natural gas
Series 8 CIO	Aviation industry	Fuel pump	Pressure monitoring of Kerosine fuel pumps in aviation	Fuel pressure, fuel pump, Kerosine, fuel pumps
Series 8 L	Metrology	In measuring modules with CAN-Bus	Multi-channel pressure measuring modules for engine test benches	Engine test benches, motor test benches, multi-channel pressure measurement
Series 9	Measuring and control technology	Valve control	Control of liquid and gaseous media	Control valves, switching valves, pressure regulator, intelligent valve
Series 9	Environmental technology	Level measurements / Flow measurements	Installation in systems for level monitoring	Environmental technology, level, hydrostatics, level probes, level measurement
Series 9 L	Automotive industry	Exhaust gas pressure measurement	Pressure measurement of waste gas	Waste gas analysis, waste gas pressure measurement, engine test bench
Series 9 L	Aviation industry	Cabin pressure	Monitors the cabin pressure (oxygen masks)	Oxygen supply, cabin pressure, air pressure, oxygen masks
Series 9 S	Measuring and control technology	Monitoring gas leakages	Monitors leakage on gas bottles	Leakage measurement, oxygen, nitrogen, argon, hydrogen, air pressure
Series 9 S (PD)	Heating industry	Pump control	Monitors flow and return pressure in heating systems	Pump control, flow pressure, return pressure, measuring transducer
Series 9 SE	Apparatus engineering	Milking systems	Handheld instrument to test and adjust milking systems	Milking systems, vacuum measurement, pressure course
Series 9 SE	Heating industry	Pump control	Monitors flow and return pressure in heating systems	Pump control, flow pressure, return pressure, measuring transducer
Series 9 SE	Process automation	Pneumatic valves	Control of pneumatic devices	Pneumatics, air-diven, air pressure, pressure build-up valves
Series 9 X (PD)	Flow	Water and gas flow	Measuring the flow rate of water or gas	Flow, water flow, gas flow, pressure difference
Series 10	Construction measurement technology	Hydraulic measurements	Controls pipeline routes	Earthwork measurement, displacing soils, force on pipelines
Series 10	Construction measurement technology	Measuring devices for the construction industry	Pore water pressure, levelling using hoses	Pore water pressure, leveling using hoses
Series 10	Explosion prevention	Security in industrial plants	Detection of explosions	Explosion prevention, fire prevention, anti-explosion, explosion-proof
Series 10	Measuring and control technology	Valve control	Control of liquid and gaseous media	Proportional pressure control valve, pressure regulation, intelligent valve
Series 10	Oil and natural gas industry	Oil production, drilling technology	Pressure and temperature measurement	Drilling technology, oil production, oil exploration, borehole, natural gas
Series 10	Ozeanografie, Meerestechnik	Depth measurement	Depth measurement down to -6000 m with data acquisition	Depth measurement, sea level measurements, oceanography, marine technology
Series 10 (spez)	Aviation industry	Cabin pressure	Monitors the cabin pressure (oxygen masks)	Cabin pressure, air pressure, oxygen masks
Series 10 E	Medical technology	Installation in dialysis units	Pressure monitoring in dialyzers	Medical technology, dialyzer, dialysis, dialysis units
Series 10 E (PD)	Machine building	Offshore-Ramming	Measurement of the internal hammer housing pressure	Ramming instruments, drilling equipment, drilling platform, pile driver
Series 10 H	Marine research	Diving robot	Monitoring the sea depths	Diving robot, marine research, diving machine, deepwater
Series 10 TAB	Mining technology	Piston cylinder pressure measurement	Monitoring the support columns in underground mining	Mining technology, technologies of mining, security technology
Series 10 X	Gas production	Measurements of oxygen	Measuring the concentration of oxygen	Oximetry apparatus, oxygen content measuring, oxygen content
Series 15	Medical technology	Sterilization	Sterilization, i.e. of hospital beds	Sterilization systems, vapour sterilization, cleaning equipment, disinfection machines
Series 15	Medical technology	Sterilization	Pressure regulation for autoclaves in sterilization processes	Autoclaves, decontamination, steamcleaner sytems, sterilization
Series 15	Utility industry	Density, level of tanks	Quantitative determination of oil, vinegar and other liquids	Level, density, tank, level display, pressure measurement
Series 20	Racing	Pressure monitoring	Miscellaneous system pressures for bikes and formula 1 (2D-systems)	Racing, ultralight sensors, small sensors, light sensors, vehicle diagnostic
Series 20 (spez)	Measuring and control technology	Flow measurement	Process transmitter for flow measurements	Flow, flow meter, Vortex, liquids, gas, vapour, pressure transmitter
Series 21	Plant construction	Pump control	Monitoring the cooling water pressure of laser systems	Pump control, water pressure, cooling water pressure, pressure monitoring
Series 21	Apparatus engineering	Gas pressure in excimer lasers	Monitoring the evacuation and filling with different gases	Laser, excimer laser, laser systems, gas pressure, laser operations
Series 21	Groundwater measurement	Water tension measurement	Transmitter measures different ground parameters	Groundwater measurement, water tension measurement, water levelssonde
Series 21	Refrigerating plants	Coolant pressure	Measures the coolant pressure in refrigerating plants	Coolant, coolant pressure, refrigerating plants, air-conditioning
Series 21	Water management	Water pressure monitoring	Pressure monitoring of water in snow cannons	Pressure monitoring, water hydraulics, water hydraulic distributor
Series 21 (spez)	Aviation industry	Cabin pressure	Control of cabin pressure (oxygen masks)	Cabin pressure, air pressure, oxygen masks
Series 21 C	Refrigerating plants	Refrigerating plants	Control of refrigerating plants	Refrigeration, refrigeration equipment, air conditioners, cooling systems
Series 21 C	Refrigerating plants	Air conditioning for railway rolling stocks	Control of refrigerating plants	Air conditioning, cooling units, cooling regulation
Series 21 CO/Y	Refrigerating plants	Compressor control, overheat protection, fan regulation	Compressor control, overheat protection, fan regulation	Refrigeration, air conditioners, fan regulation, compressor control
Series 21 G	Plant construction	Switches	Measures the residual pressure in autoclaves.	Autoclaves, sterilization, sterile, vapour pressure curve, vapour pressure
Series 21 G	Automotive industry	Car air conditioning	Systems for filling refrigerants in car air conditioners	Air conditioners, automotive, refrigerant, filling systems
Series 21 G	Medical technology	Sterilization of dental instruments	Pressure control on autoclaves	Autoclaves, pressure monitoring, sterilization, dental instruments

Series 21 MC	Heating industry	Pump control	Monitors flow and return pressure in heating systems	Pump control, flow pressure, return pressure, compressor technology
Series 21 PY	Mobile hydraulics	Monitoring valves	Monitors and controls valves	Mobile hydraulics, stationary hydraulics, elevator hydraulic systems, hydraulic drives
Series 21 PY	Tools for craftsmen	Pressing tools	Pressing tools and accessories for sanitary and heating installations	Hydraulic pressing tools, pneumatic pincer, pressing power monitoring
Series 21 R	Medical technology	Oxygen pressure monitoring	Pressure monitoring of oxygen tanks in ambulances	Pressure monitoring, oxygen tanks, medical technology, pressure probe
Series 21 S	Test and measurement engineering	Test benches	Test benches for aviation electronics	Test benches, stationary test benches, aviation electronics
Series 21 SR	Medical electronics	Vacuum regulator	Eye operations; lifting the cornea when operating cataracts	Medical instruments, vacuum measurements, ophthalmic surgical instruments
Series 21 Y	Air-conditioning	Air-conditioning compressors	Measures the refrigerants' pressure (depending on the temperature)	Refrigerant, air-conditioning compressors, air conditioners
Series 22	Automotive industry	Transmission control	Regulation via transmission shift and torque distribution.	Transmission control, gearshift, transmission shift, electronic control
Series 22	Machine building	Plasma cutting	Pressure monitoring	Plasma cutting, plasma cutting technology, compressed-air supply
Series 22	Pump-/compressor technology	Pump control	Monitoring and control of wells and tanks	Pump control, pump regulation, compressor technology
Series 22 DCX	Water management	Water level monitoring	Monitoring reservoir water levels	Level measurement, water level, water level monitoring
Series 22 DCX	Water management	Level measurement	Controls and compares ground water levels	Level measurement, water level, ground water monitoring, hydrostatic pressure
Series 22 DCX	Water management	Level measurement	Deep well pressure monitoring	Drilling of wells, geothermal drilling, thermal drilling
Series 22 DCX (AA)	Infrastructure	Level measurement technology	Measuring network along the Mittelland Canal	Level data logger, level logger, remote data transfer unit, data logger
Series 22 DCX AA	Sewage management / water management	Sewage systems	Measurement of wastewater system flooding	Wastewater systems, wastewater, ground water, ground water level
Series 22 DCX AA	Water management	Logging of water level	Logging of water level	Level measurement, water level, water level monitoring
Series 22 DT	Automotive industry	Pressure and temperature control	Gas pressure and temperature control in rails	Gas pressure monitoring, pressure monitoring, temperature control
Series 22 M	Automotive industry	Injection pressure monitoring	Measurement von gas pressure	Liquid injection system, injection pressure monitoring, injection pressure
Series 22 M	Automotive industry	Pressure monitoring in gas tanks	Monitors the gas pressure in gas-driven buses	Gas pressure, pressure monitoring in gas tanks, gas pressure monitoring
Series 22 M/S	Automotive industry	Tire pressure	Measurement of the tire pressure	Tire pressure, tyre pressure, tyre pressure sensor
Series 22 PS	Railway vehicle construction	Brake pressure	Brake pressure measurements in vehicles like trams	Brake pressure measurement, railway vehicle construction
Series 22 S	Air-conditioning, refrigerating plants	Air-conditioning regulation	Control of air-conditioners	Pressure regulation, heating installations, refrigerating plants, air-conditioners
Series 22 S	Agriculture	Spraying equipment on trucks	Spraying equipment for farmlands	Spraying equipment, pressure sensor, dynamic pressure
Series 22 S	Medical technology	Sterilizing machines	Pressure monitoring on autoclaves in the sterilization mode	Autoclaves, pressure vessels, sterilization, medical technology
Series 22 S	Pump-/compressor technology	Water pressure monitoring	Pressure monitoring on water pump stations	Pump stations, pressure meters, pump technology, compressor technology
Series 23	Plant engineering	Vacuum measurement in petrol tanks	Petrol tanks are tested with vacuum for tightness	Tightness test, vacuum measurement, petrol tanks, plant engineering
Series 23	Drive engineering	Engine diagnosis	Diagnosis of marine diesel engines (250 t)	Oil pressure, oil pressure measurement, engine diagnosis, engine test benches
Series 23	Automotive industry	Test benches, gas pressure	Engine test benches, surveillance gas pressure	Test bench, test benches, engine test bench, engine technology, gas pressure
Series 23	Plastic industry	Injection pressure	Monitoring the injection pressure, tightness monitoring on blanks	Injection pressure, plastics processing, tightness testing
Series 23	Machine building	Pressure monitoring	Vacuum packaging machine	Vacuum packaging machine, machine building, vacuum bag, vacuuming
Series 23 (PD)	Diesel engine construction	Marine engines	Miscellaneous pressure monitoring	Marine engines, Diesel engines, rough applications, Diesel engine construction
Series 23 (PD)	Machine building, Diesel engines	Turbo pressure regulation	Measuring and controlling the turbo pressure in Diesel engines	Turbo pressure, turbo regulation, turbo pressure regulation, Diesel engine
Series 23 E FA	Food industry	Tank level measuring	Route planning via tank level measuring	Force sensor, tank capacity, tank level measuring, differential pressure
Series 23 Ei	Measurement and test engineering	Pressure monitoring	Pressure monitoring in gas distribution networks and gas tanks	Pressure monitoring, gas tanks, gas distribution network, gas pressure measurement
Series 23 R	Railway construction	Pressure monitoring in toilet systems	Level control in excrement tanks	Level measurement, level control
Series 23 R	Medical technology	Monitoring the pneumatic drive	Monitors the pneumatic drive on air-driven dentist tools	Pneumatics, air-driven, pneumatic tools, air pressure
Series 23 R	Medical technology	Monitoring gas supply	Monitors the gas supply in cylinders	Medical technology, gas supply, oxygen, cylinder pressure
Series 23 R	Process engineering	Pump control	Pump control for pressure regulation in a liquid chromatograph	Pump control, pressure regulation, liquid chromatograph
Series 23 S	Heating industry	Tank level measurements	"In-House" water tank, level measurements and pump control	Level control, level measurements, water tank
Series 23 S	Agriculture	Mobile water compressors	Pressure monitoring of mobile water compressors	Water compressors, mobile water compressors, compressor pressure
Series 23 S	Space travel	Rocket experiments	Monitors the pressure in gas bottles during rocket experiments	Rockets, rocket experiments, bottle pressure, space travel
Series 23 S	Train industry	Control of brake system	Measure the brake pressure in train air pressure brakes	Air pressure brakes, brake pressure, compressed-air reservoir
Series 23 S (spez)	Aviation industry	Cabin pressure	Monitors the cabin pressure (oxygen masks)	Oxygen supply, cabin pressure, air pressure, oxygen masks
Series 23 S Ei	Gas and water supply	Monitoring gas supply	Monitoring instrument for pressure detection in pipelines with natural gas	Natural gas, Eex, ATEX, pipelines, CNG
Series 23 X	Automotive industry	Engine test benches	Monitoring the different pressure profiles during engine tests	Turbo, engine pressure, pressure profiles, engine test bench
Series 23 X	Measurement and test engineering	Level monitoring	Engine test equipment	Engine test equipment, engine test benches, pressure testing apparatus
Series 23 Y	Plastics industry	Injection pressure	Monitoring of injection pressure, leak test	Injection pressure, injection pressures, leak test

Series 25 (spez)	Plant construction	Wasser pressure and temperature	Snow generation	Snow generators, snow generation, snow machines
Series 25 (spez)	Automotive industry	Monitoring injection pressure	Injection pressure monitoring in high voltage enamelling lines	Painting systems, high voltage enamelling lines, pressure monitoring
Series 25 Ei (PA)	Painting industry	Relief printing	Special version with flush diaphragms, some with light fiber output for high voltage	Painting application, painting plants, painting technology, spraying system
Series 25 HAT	Biotechnology	Gas pressure monitoring	Use of pressure sensors in silos	Gas pressure monitoring, silo pressure monitoring
Series 25 S	Construction machines	Level	Water tank level of road construction rollers	Level of construction machines, rugged measurements, easy installation
Series 25 S	Chemical industry	Process control	Regulating and steering processes in the paper industry	Process steering, regulating processes, pressure monitoring, paper industry
Series 25 S	Machine building	Ink pressure measurement	Industrial ink jet printer	Ink pressure measurement, ink jet printer, industrial ink jet printer
Series 27 R	Process engineering	Pump control	Pump control for pressure regulation in liquid chromatographs	Pump control, liquid chromatograph, pressure regulation
Series 27 W	Shipbuilding	Level measurement	Level measurement in Diesel tanks	Level measurement, Diesel tanks, Diesel stations
Series 33 X	Plant engineering	Vapour pressure	Pressure measurement in closed milk tanks	Vapour pressure, milk tanks, pressure measurement
Series 33 X	Automotive industry	Test benches, engine test benches	Engine and transmission test benches	Engine test bench, engine test benches, gas pressure
Series 33 X	Mining, tunnelling	Hydraulic pressure	Monitoring the pressure in mining technology applications	Mining, mining technology, "Steck-O"
Series 33 X	Electronics industry	Monitoring of SF6 switches	Gas density calculation	Gas density, gas density calculation, SF6, SF6-gas, SF6-switch
Series 33 X	Aviation industry	Cabin pressure	Monitors the cabin pressure (oxygen masks)	Oxygen supply, cabin pressure, air pressure, oxygen masks
Series 33 X	Aviation industry	Air flow measurement	Dynamic and static pressure measurements on air plane profiles	Flow measurement, air flow measurement
Series 33 X	Machine building	Hydraulic pressure	Monitors and controls hydraulic pressure of press brakes	Hydraulic pressure, press brakes, pressure monitoring
Series 33 X	Measurement and test engineering	Test benches for Formula 1-engines	Pressure monitoring of test engines, test benches	Engine test benches, Formula 1, engine pressure
Series 33 X	Measurement and test engineering	Paper testing	Pressure monitoring	Paper testing, tensile testing machine, burst pressure testing instrument
Series 33 X (PD)	Plant construction	Pump control	Monitoring the cooling water pressure of fuel cell driven U-boats	Drive pressure, cooling water, cooling water pressure, fuel cells
Series 33 X Ei	Plant construction	Tank stations for hydrogen	Hydrogen pressure control	Hydrogen pressure, hydrogen tank station
Series 35 LX	Medical technology	Protein filtration	Control and measurement of protein filtrations	Precise pressure control, high precision pressure measurements, protein filtration
Series 35 X	Chemical industry	Bioreactors	Pressure monitoring in autoclaves/bioreactors during sterilization	Autoclaves, bioreactors, sterilization, sterilization processes
Series 35 X Ei	Automotive industry	Filter measurement	Filter monitoring in fuel trucks	Filter monitoring, kerosene, kerosene trucks
Series 35 X HT	Laboratory technology	Level of reactors	Level measurement of sterilizable containers under pressure	Bio reactorsn, fermenters, reactor evel, autoclaves
Series 36 W	Waste water	Level control, overflow safety	Waste water monitoring	Waste water, waste water systems, excrement tank.level control
Series 36 X	Oil industry	Level control, overflow safety	Monitoring minimal and maximal pressure of tanks, tank trucks and silos	Level control, minimum and maximum pressure, overflow safety
Series 36 X	Process automation	Level measurement	Cordless telemetry (remote data transfer of measuring values)	Data logger, remote data transfer, remote data transfer unit, GSM
Series 36 X	Water management	Monitoring of boreholes	Level measurement in boreholes	Level measurements, borehole monitoring, boreholes
Series 36 X W	Pump-/compressor technology	Pump control	Monitoring and control of wells and tanks	Well control, tank monitoring, pump control, reservoir control
Series 36 X W	Water management	Level measurement	Pressure monitoring in deep wells	Deep well, deep well pressure, deep well pressure monitoring
Series 36 X W	Water management	Base pressure in dam walls	Monitoring the base pressure in dam walls	Base pressure measurement, dam walls, water pressure
Series 36 X W	Water management	Water depth monitoring	Water depth monitoring in docks	Water depth monitoring, water depth, water depth measurements
Series 36 X W	Water management	Level measurements	Water level measurements	Ground water, water level measurements
Series 39 X	Pump-/compressor technology	Pump control	Power control in heating systems	Heating systems, flow pressure, return pressure
Series 39 X (PD)	Automotive industry	Engine test benches	Monitoring the different pressure profiles during engine tests	Turbo, engine pressure, pressure profiles, engine test bench
Series 39 X (PD)	Machine building	Weighing technology on wheel loaders	Hydraulic pressure measurement	Hydraulic pressure, OEM-solutions, weighing systems
Series 39 X (PD)	Measuring and control technology	Weighing systems	Weighing systems for trucks, delivery vans...	Axle load measuring system, weighing systems, weighbridges
Series 39 X (PD)	Tunnelling, fluid technology	Tunnelling	Water flow measurement, regulation of the tunnel drills	Water flow, water flow monitoring, tunnelling
Series 41 (PR)	Drive engineering	Engine diagnosis	Diagnosis of marine diesel engines (250 t)	Oil pressure, engine diagnosis, marine diesel engines
Series 41 (PR)	Machine building, Diesel engines	Crank case pressure measurement	Crank case pressure measurement of Diesel engines	Diesel engines, marine diesel engines, Diesel generators
Series 41 X	Diesel engine construction	Marine engines	Miscellaneous pressure monitoring	Marine engines, Diesel engine construction
Series 41 X	Measurement and test engineering	Paper testing	Pressure monitoring	Paper testing, tensile testing machine, burst pressure testing instrument
Series 41 X (PD)	Aviation industry	Hydraulic oil pressure of filters	Monitors the oil filter pressure in the Airbus	Filter, oil filter, hydraulic oil pressure
Series 46	Construction measurement technology	Big bubble levels	Communicating pipes on large-scale construction projects	Bubble levels, communicating pipes
Series 46 X	Water management	Water level in wastewater treatment plant	Measurement of water level in wastewater treatment plants	Water level, highly precise water level measurements
