Save time and money! Arlington's new, low cost MC cable fitting in the 2" trade size, is super-convenient and cost-effective. The fitting has a built-in end stop, but it also comes with three additional end stop bushings that accommodate different size cable bundles. ONE trade size fits several cable sizes!

If required, using an end stop bushing is fast and easy. There's no need to remove the strap. Just loosen the screws and insert the bushing that works the best with the cables you're installing.

Our zinc diecast 8415 fitting costs much less than steel or malleable iron fittings. And it reduces inventory.

- Built-in end stop in fitting
- UL/CSA Listed

**Cable Bundle Diameter-2" Trade Size (8415)**

Outer Diameter: of Cable of Wire Bundle	MIN.	MAX.
	1.70	2.20
