

ALL IN A DAYS WORK

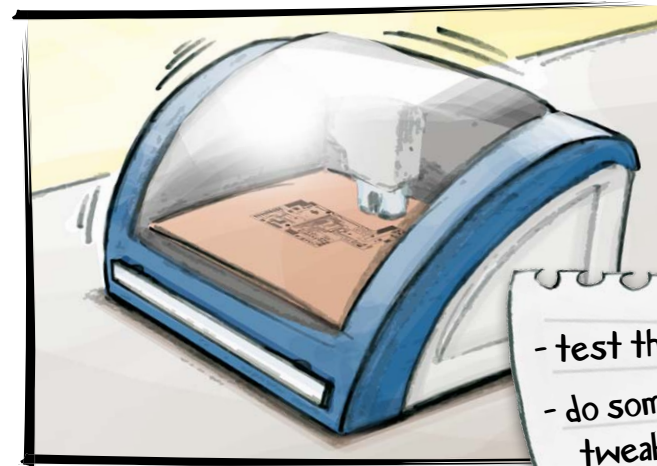

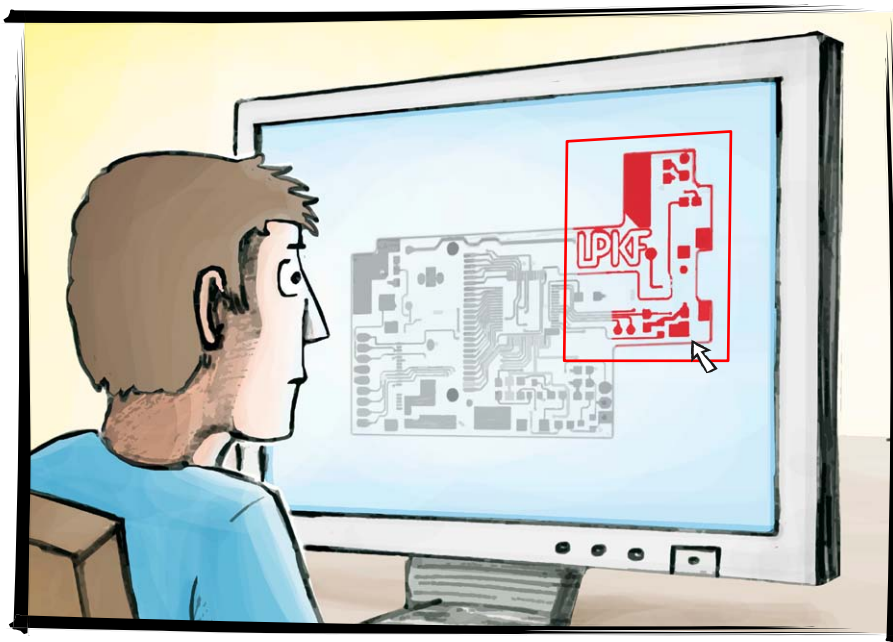

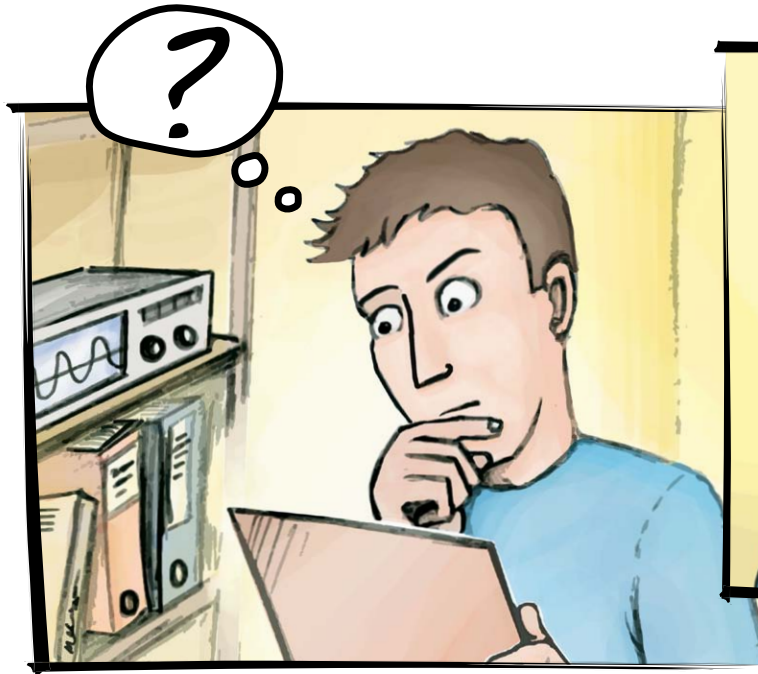

A comic story by **LPKF**, based on real events.

- import layout ✓
 - prepare data ✓
 - choose material ✓
- All done in less than 15 minutes!**

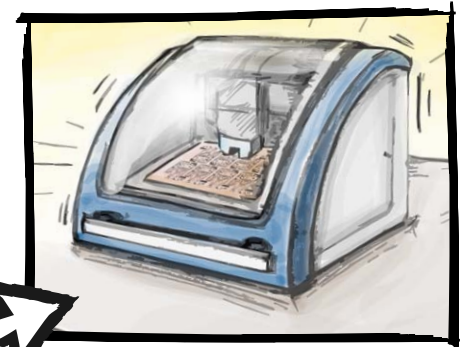

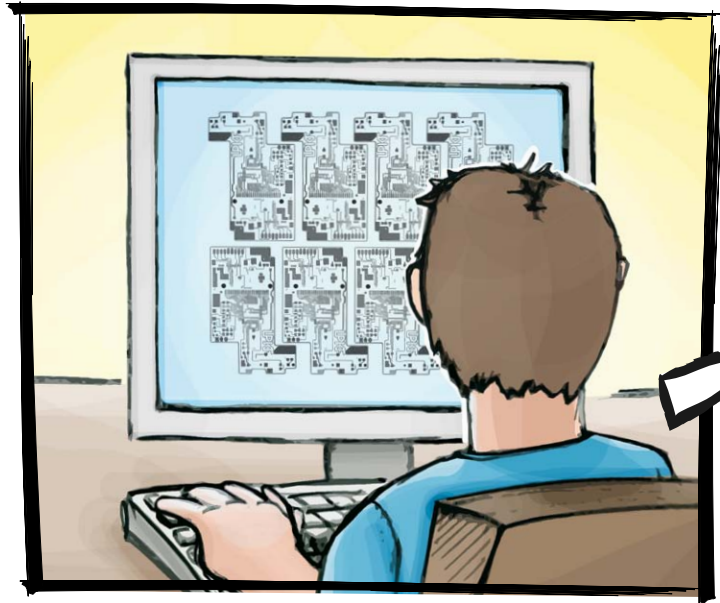

- start machine, walk away ✓
- relax, now you are free for other tasks, while your ProtoMat does all the work ✓
Finished after only 35 minutes 😊

- test the board ✓
- do some quick tweaks, if needed ✓
- start next prototype run ✓

Ready before lunch!

Later at the conference ...

happy
THE END!

- happy with your layout? Then it's time to setup a pcb array ✓
- present to your colleagues and boss ✓
All in a days work!
