company profile

Trusted  
Global  
Supplier

### WORLD CLASS CALIBRATION FACILITIES

With two testing facilities in California, we have the flexibility to test flow meters that range from ½ inch to 72-inch in diameter.

Our Porterville flow lab is one of the world's largest volumetric systems owned and operated by a manufacturer in the world. Calibrated accuracy is assured by ISO 17025 Accreditation.

# Expertise in Flow Physics

## COMBINED WITH QUALITY MANUFACTURING

McCrometer is a leading global flow instrumentation specialist. We specialize in the design, manufacture, installation and testing of flow metering solutions. Instrument, process, facility and consulting engineers worldwide have confidently chosen McCrometer's flow meters for 60 years.

# Listening to customers innovating solutions

## HISTORY OF MCCROMETER

In 1955, engineers committed to developing real-world flow metering solutions founded McCrometer. Unable to find the right flow meter for their irrigation system, the original engineers designed their own, and formed McCrometer, based in Hemet, California. Over 60 years later, this solutions-oriented approach still guides the company.
