

Body Fat Meter

with alarm clock

Fitness isn't just about your weight. Crash diets can deplete healthy muscle. A good fitness program will help you reduce your body fat while retaining, or even increasing, your muscle mass. The key is knowing how much of your weight is lean and how much is fat. Our **Body Fat Meter** can help you track your progress.

Product Features:

- Only five buttons for easy operation
- Stores up to six personal data profiles
- The result of body fat is shown by weight percentage for easy reading
