Our in house facility is equipped to repair, recondition and test circuit breakers up to 4000 A.

Onsite testing and installation is available for the South Florida Area.

Other Products

- LITE Electronic Ballasts,
- SJ GFI Receptacles,
- Pressure Transducers.

Open Transfer Switch

We stock Open Transfer Switches up to 6300 A.
Automatic Transfer Controller.

Enclosed Transfer Switches and Air Circuit Breakers

We stock Enclosed Transfer Switches and Air Breakers up to 6300 A.
Synchronization and Paralleling Switchgears.

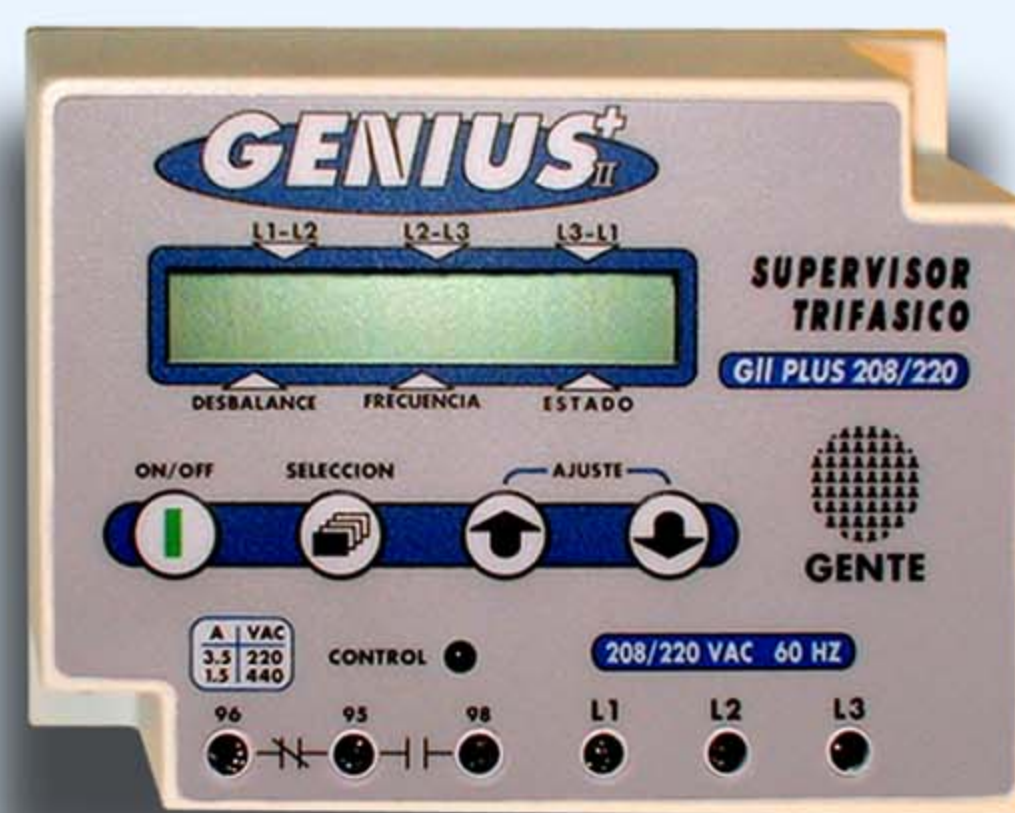

Replacement Air Circuit Breaker

Replaces mechanically and electrically Masterpact* Air Circuit Breakers.

From 630 to 6300 A, 600 VAC max.

Breakers are manufactured accordingly to IEC-947-2.

* Masterpact is a registered trademark of Schneider Electric.

GENTE Motor Control

- Voltage Monitors ●
- Electronic Timers ●
- Photocells ●
- Computers and Appliances Protection ●

LG Medium Voltage Equipment & Cast Coil Transformer

- Vacuum Circuit Breaker (for export only)
- Vacuum Magnetic Contactor (for export only)
- SF6 Load Break Switch
- Cast Coil Transformer

Residential Products

- Load Centers
- DIN Rail Breakers
- Plug-In Breakers
- Ground Fault Breakers

Miami Breaker, Inc. (MIB) was established in 1994 to fulfill a market for old style breakers.

As of today MIB manufactures new breakers (*R-Line™*) that will replace mechanically and electrically old style breakers.

MIB also manufactures automatic and manual transfer switches, carry a large inventory of new breakers, motor controls, GFI receptacles and electronic ballast, made by major manufacturers.

Last but not least remanufactured breakers are ready for shipment today.
