V-SFT-5 Upgrade Information

V-SFT-5 Ver. 5.4.27.0

Major update in trend graph/trend sampling display:

1) Zoom-in display : Displays the lines with partially enlarged view
2) Sample time display : Displays start/end time of the graph
3) Cursor value display : Displays a value at the cursor position
4) Scale display : Displays scales, grids, values by simple settings in V-SFT-5

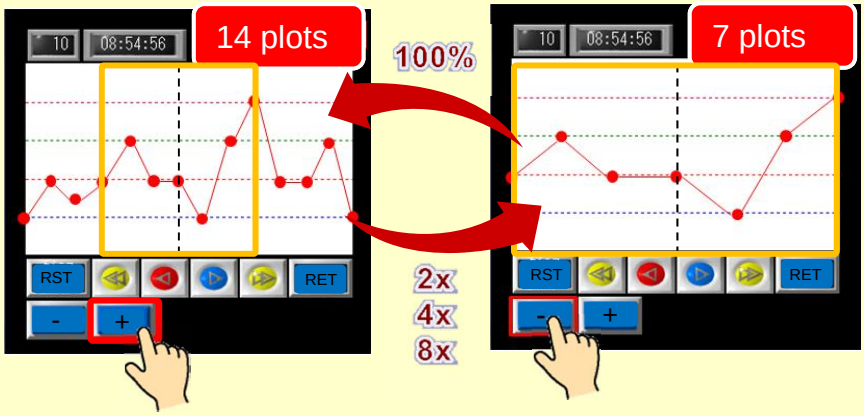
Trend graph/trend sampling zoom-in display

Function Enhancement 1

Zoom-in display

Supported function	Trend sampling

Trend sampling supports zoom-in display feature which allows you to enlarge critical part of the data.



Zoom-out display from 100% size is not supported.

Graphs can be enlarged in 4 levels (same size, 2x, 4x, 8x) by a button or PLC command.

* See the table on the right for magnification ratio and setting values.

[PLC command value to magnify]

Value	Magnification
0	Same size
1	2x
2	4x
3	8x

Function Enhancement 2

Sampling time display

Supported function	Trend sampling

Logging time of start point and end point is displayed.

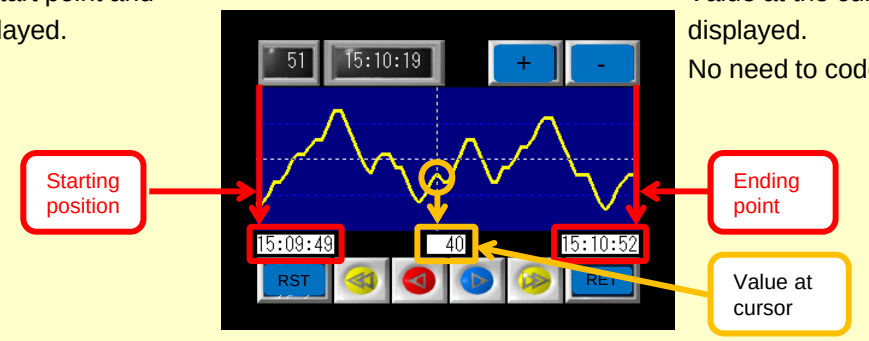
Function Enhancement 3

Cursor value display

Supported function	Trend sampling

Value at the cursor is automatically displayed.

No need to code macro commands.



Sampling time display and cursor value is refreshed to update when the cursor moves or display is enlarged.

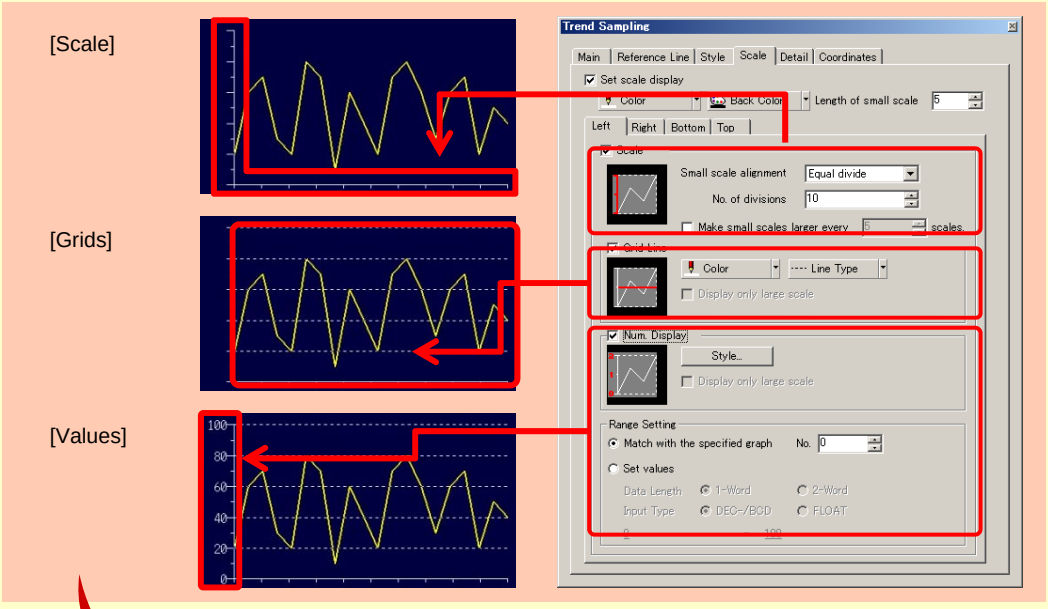
●All brand names and product names in above are trademarks or registered trademarks of their respective companies.

Function Enhancement 4

Scale display

Supported function	Trend sampling Trend graph

Scale/grid/value can be set easily on the left, right, top and bottom of the graph.
Readability of graphs greatly improves.



By combining each options…
