## V-SFT Update Information

### V-SFT-5 (Ver. 5.4.17.0)

- Thanks to the customize feature of panel meter, it is possible to design the panel meter in detail so that it matches the mage of your familiar meter.
- Simultaneous operation of two screens is available by using a global overlap that can be shown constantly.
- It is possible to change the contents of the message/comment simply by editing the text file with the screen program unopened.

## Customizable Panel Meter

Additional features

### [Before]

Detailed parts cannot be changed due to the restrictions.

I'd like to make the panel meter look like the real meter I used to use before…

### [Now: Customizable]

Flexible customize feature makes it possible to create a panel meter more freely.

Good

---

**Function Enhancement  1  Indicator Style Editing**

**-Possible to change shape/length of indicator**

It is possible to select the shape of the indicator that you wish to use from the list.
The length of the indicator can also be specified in a unit of dot.

**-Select bitmap image as indicator**

It is possible to select an original image created by yourself and use it as an indicator of the panel meter.
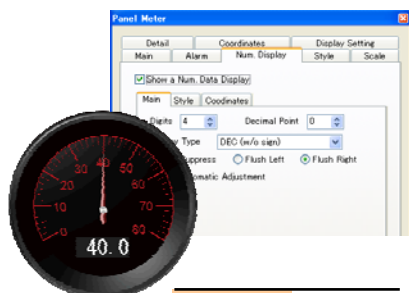

| Applicable models | V815X, V812iS, V812S V810iS, V810S, V810iT V810T, V808iS, V808S |
|---|---|

*Supported with 32K colors or more.

---

**Function Enhancement  2  Num. Display Placement**

Num. Display is added to the panel meter setting. It enables you to create a panel-meter with the combination of analog and digital display.

40. 0

| Applicable models | V8 series |
|---|---|

*Supported with 32K colors or more.
*Not supported with V806 series with portrait orientation.

**Function Enhancement  3  Scale Setting Added**

Scale setting is added to the panel meter setting. It is possible to select an original image as a scale.

## Global Overlap

It is possible to display the same overlap even switching the screens.

**Before switchover**

**During switchover (image)**

**After switchover**

**The global overlap does not disappear even during the screen switchover.**

**Global Overlap**

**Convenient for the cases such as…**
- Certain information needs to be shown constantly.
- Screens need to be separated as usage
  e.g.) one for operating and one for monitoring

## Message / Comment Transfer Feature

It is possible to change only the contents of the message/comment using a text file without modifying the screen program itself.

**Transfer**

**A.V8 (Screen program)**

+

**MSG00000.txt (Message)**

**Transfer the screen program and the text file at once.**

A.V8

1st line:Emergency Stop
1st line:Sensor Abnormal

**Modification NOT necessary**

A Pro. line:Emergency Stop
A Pro. line:Pressure Sensor Abnor.

**For company A**

**For company B**

**Easy to manage screen programs!**
It is possible to change only messages depending on the needs of each customer without modifying the screen program that manages master data.

Good
