

Deployable Reels

Deployable Reels

Product Details:

These heavy duty light weight deployable reels provide the ideal solution for running fibre optic cable for temporary connections. The latching door provides a secure area inside the drum for protection of the internal fibre optic connectors. Reels are easily transportable, come in 3 sizes offering varying cable lengths from 100 metres to 600 metres (see table below) and are manufactured from heavy duty Rubberised Plastic. MSS Fibre Systems can provide these reels loaded with the fibre cable and connectors of your choice supplied fully tested ready for deployment.
