

# One Idea

Controls Info You Need And Nothing Else.

Application Note:

NexTouch

Touchscreen Control

## Conference Room Control Solution

NexLight now offers a simple conference room solution to share with specifiers and engineers in need of a simple and reliable conference room controller. NexTouch uses LCD touch screen technology to provide integrated control of area lighting. This powerful device can provide up to 24 different lighting scenes. The touchscreen can also be used as a room partition controller.
