NITO Stainless Steel Ergonom, light, easy and strong Spray Gun

NITO Stainless Steel gun is a special strong gun, in environments where there are sometimes rough treatment. Workrooms and production environments. Where the gun is exposed to knocks and bumps. NITO Stainless Steel gun is a high quality product that never falls. Soft plastic housings shockproof and non stainable. Sealed case to avoid dirt stagnation.

Application:

- For Flushing and cleaning jobs in industries and tasks requiring a sturdy gun that is capable of withstanding impact and that saves water when in use
- For water with or without soap solution, e.g. for rinsing, washing, flushing and detergents
- Infinitely variable spray, from a concentrated spray to a spray with a dispersion angle of 60° degrees
- Spray can be adjusted using a tool
- Low pressure spray gun with pencil/cone jet adjustable from trigger and knob
- Light and easy to use
- Can operate at different temperatures and different pressures for a wide range of applications.
