

Carbon & Alloy Boiler Tubing

Cold Drawn and Hot Finished Seamless Boiler Tubes

Lengths up to 75 feet

Wide range of O.D.s and walls to
fit your specialized requirements

Ultrasonic full body testing
capabilities in two-, four-, or
five-direction methods

Multi-Lead Ribbed (MLR) Tubing
with rifled I.D.

Special end finishing available

The only domestic source for
Hot Finished Boiler Tubes

Plymouth cold-drawn MLR (multi-lead ribbed) tubing increases boiler efficiency while providing better heat transfer. MLR tubing stimulates proper steam flow, preventing steam pockets and hot spots that will inevitably damage the tube.

Premium quality...exceptional lead times...made in the USA.
