

- Parts complete to your 3D CAD data & PRINTS
- Perpetual inventory managed to mutually agreed upon levels to accommodate customer schedule fluctuations.
- Blanket purchase orders with the ability to make ECOs or Rev changes to your product without the risk of obsolescence and subsequent obsolescence claim costs, and most importantly the opportunity cost of the TIME involved in implementing the desired change to the part itself.

Some Industries Served:

- | | |
|------------------------|------------------|
| - Aircraft / Aerospace | - Defense |
| - Medical | - Commercial |
| - Gaming & Amusement | - Communications |

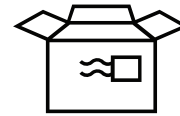

"You have won my confidence. The parts came in and according to my engineers, looked great and on first pass, fit the application. I made sure our management and other buyers here realized how pleased we were with your service, thank you!!!"
