

PIPE TOOLS & VISES
SINCE 1896

RC42 ROTARY™ CUTTERS FOR LARGE DIAMETER PIPE

- RC42S cuts 40 – 42” steel pipe. Or, order it as RC42I to cut 36” cast iron and ductile iron pipe.
- Features a long handle with a ratcheting mechanism and include a separate, professional-grade wrench to tighten the cutter at every half revolution.
- Pipe snaps off squarely once the operator works it manually around the cut zone.
- Heavy-duty frames.
- Only requires 11.8 inches clearance.
- Works best with 2 people.
