

Spring-Loaded C Cutters

PIPE TOOLS & VISES
SINCE 1896

- Snap and turn for quick, easy cuts on copper tubing.
- Spring-loaded cutter wheel self-feeds with consistent pressure as the tool is turned around the tubing.
- Great for low clearance areas since the compact c-shape requires no handle swing space.
- Nubs on cutter make it easy to grip.
- Replaceable cutter wheel.

TC75SL

Catalog No.	Item Code	Pipe Capacity		Application
		Nominal in	Actual Ø mm	
TC50SLR	03404	1/2	15.9	CTS CPVC, M copper, L copper, and soft K copper
