Drilling Machine

DM2100

DM1100

- User friendly, low profile machines are lightweight and compact.
- TM1100 direct taps and installs 3/4" - 1" corp stops.
- DM1100 series saddle taps 3/4" - 1" and the DM2100 series saddle taps 3/4" - 2", both under pressure.
- All machines are suited for cast iron, ductile iron, and C-900 PVC. Drilling machines also work on PE water mains.

Tapping Machine

BEST EVER!

Shown: TM1100

Reed's direct tapping machine is used to drill and tap water mains while under pressure, then to install 3/4" or 1" corporation stops in a 2-step operation. It covers a range of 4" - 48" cast or ductile iron and C-900 PVC with the use of saddles and chain extensions. The TM1100 features a "flip clamp" star feed system. Anodized and epoxy-painted aluminum frames provide a lightweight yet strong machine for tough in-ditch applications. The swing valve allows easy change-out from drill tap to corporation insertion tool without main shutdown.

TAPPING MACHINE ACCESSORIES

Sold separately.

PVC DRILL TAPS

The unique three flute design bores into the pipe with less effort than other drill tap designs and insures that the coupon and cuttings are retained.

DRILL TAPS

Performs fast with six cutting edges for clean threads and less leaks. Has a sharper point for easy starting.

SADDLES

Available in sizes from 4" up to 48".

TAPPING COMPOUND

Food grade compound that does not contaminate water, making this compound environmentally friendly.

Combination Drilling & Tapping Machines

Shown: CDTM2100

The CDTM machine kits contain the necessary components to assemble a tapping or drilling machine. The CDTM1100 is a TM1100 with components for converting to a DM1100. The CDTM2100 is a TM1100 with components for converting to a DM2100. It utilizes Reed Drill Taps and Reed D Series Drill Bits, Hole Saws or Shell Cutters. Accessories (shown on pages 2-3) must be purchased separately.
