# EXTENDED SOCKETS

From left: EDS20, EDS18,  
EDS17, EDS12, EDS14

For deep well needs, Reed offers extended sockets that are impact grade. Use Extended Sockets to tighten hex nuts on repair clamps, mechanical joint fittings, and saddles. Reed offers two socket shapes in 5 sizes. Drive them with a 1/2" square drive impact wrench; hand tightening is also possible.

## Extended Sockets

Cat. No.	Item Code	Description	Weight
EDS12*	02622	3/4" socket – 6 1/2" long	1.5 lb
EDS14*	02624	7/8" socket – 6 1/2" long	1.6 lb
