CONVENTIONS CONCLUES AVEC PROFESSIONNELS DE SANTÉ AGREEMENTS WITH INDIVIDUAL HEALTHCARE PROFESSIONALS

Titre, nom et profession du Professionnel de santé	Spécialité	Qualification	RPPS	Date de la convention	Objet de la convention	Identité de l'entreprise contractante
Professeur Emmanuel Cuny (Médecin)	Neurochirurgien	Neurochirurgien	10002817111	03/04/2013	Orateur	Renishaw Mayfield SA
Professeur Emmanuel Cuny (Médecin)	Neurochirurgien	Neurochirurgien	10002817111	13/04/2013	Services de conseil	Renishaw Mayfield SA

CONVENTIONS CONCLUES AVEC ÉTABLISSEMENTS DE SANTÉ AGREEMENTS WITH HEALTHCARE INSTITUTIONS

Date de la signature de la convention	Noms des parties à la convention	Adresse des établissements de santé	Type de convention
13/02/2013	(1) Renishaw SA (2) Le Centre Hospitalier Universitaire de Bordeaux	12, rue Dubernat, 33404 Talence Cedex, France	Présentation à la conférence de chirurgie neurologique d' Arabie Saoudite en Arabie Saoudite par le professeur Emmanuel Cuny

SCIENTIFIC PROGRAM

TUESDAY 2ND APRIL, 2013

- 7:30 – 8:00 Registration
- 8:00 – 8:05 Welcome Speech by the President of the Conference, Dr. Saleh Baeesa

Session I: Brain Tumors

Chairmen: Prof. Zain Alabedeen Jamjoom and Dr. Mohammed Bin-Mahfoodh

- 8:05 – 8:40 Technical Nuances in the resection of intracranial tumours
Prof. Saleem Abdulrauf
- 8:40 – 9:00 Major Cranial Procedures without Blood Transfusion
Prof. Abdulrahman Al-Anazi
- 9:00 – 9:10 Titanium mesh repair of anterior skull base defects through minimally invasive approaches, a novel method
Dr. Mowaffak El-Azm
- 9:10 – 9:20 Primary Brain Tumors in Eastern province
Dr. Mahmoud Taha
- 9:20 – 9:30 Management of Ventricular & Extraventricular Neurocytoma
Dr. Hussam Jabri
- 9:30 – 9:40 Discussion
- 9:40– 10:00 Coffee Break

Session II: Cerebrovascular Surgery

Chairmen: Prof. Khalaf Almutairy and Prof. Abdulrahman Al-Anizi

- 10:00 – 10:30 Complex Cerebral Aneurysms: Technical Challenges
Prof. Saleem Abdulrauf
- 10:30 – 10:50 Potential chemoprevention of propoxur-induced cerebral injury by thymoquinone: involvement of antioxidant and antiapoptotic mechanisms
Prof. Bassem Sheikh
- 10:50 – 11:00 Encephaloduroarteriosynangiosis (EDAS) for revascularization of Moya Moya Disease (MMD)
Dr. Anwar Ulhaq
- 11:00 – 11:25 Deep-seated Vascular Malformations: Decision-Making Process
Prof. Saleem Abdulrauf
- 11:25 –11:30 Discussion
- 11:30 – 12:30 Opening Ceremony
- 12:30 – 14:00 Prayer and Lunch Break

Session III: Spine 1

Chairmen: Dr. Amro Alhabib , and Dr. Mohammed Homoud

- 14:00 – 14:25 Minimal Invasive Surgery and Radiation exposure
Prof. Richard Assaker
- 14:25 – 14:55 Management of Craniocervical Junction Mass Lesions
Prof. Haroon Choudhri
- 14:55 – 15:20 Lumbar degenerative pathologies in elderly: from decompression to arthrodesis. Impact of the sagittal profile
Prof. Richard Assaker
- 15:20 – 15:45 Evolution in Spinal Fusion
Prof. Amr Elshawarbi

- 15:45 – 16:00 MISS/Percutaneous expandable TLIF; a new transforaminal approach for intervertebral spondylodesis for low back pain
Dr. Zbigniew Brodzinski
- 16:00 – 16:20 Cervical Disk Arthroplasty: What did we learn in 10 years?
Prof. Richard Assaker
- 16:20 – 16:30 Discussion
- 16:30 – 17:00 Prayer and Coffee Break

Session IV: Young Neurosurgeons- Session 1

Chairmen: Dr. Homoud Aldahsh and Dr. Ali Aljuzir

- 17:00 – 19:00 Peripheral Nerve Workshop
Dr. Bassam Addas

Saudi Association of Neurological Surgery General Assembly

17:00-19:00

WEDNESDAY 3RD APRIL, 2013

Session V: Pediatric Neurosurgery

Chairmen: Prof. Ahmed Ammar and Dr. Essam Al-Shail

- 8:00 – 8:30 History of hydrocephalus, Shunts and its complications
Prof. Marion Walker
- 8:30 – 9:00 Current endoscopic approaches to hydrocephalus
Prof. Marion Walker
- 9:00 – 9:15 Natural history of hydrocephalus in children with spinal open neural tube defect
Dr. Essam Eljamal
- 9:15 – 9:30 Surgical management of pediatric craniopharyngioma
Dr. Essam Al-Shail
- 9:30 - 9:45 Thick filum terminale in normal lying conus medullaris: To cut, to observe or to randomize?
Dr. Bassam Addas
- 9:45 - 9:55 Early Primary Neurosurgical Repair Within 24 Hours of Life Significantly Decreases Infection Rates in Infants Born with Open Myelomeningocele
Dr. Ali Aljuzair
- 9:55 – 10:10 Discussion
- 10:10 – 10:30 Coffee Break

Session VI: Medical Education

Chairmen: Bassam Addas and Dr. Saggaf Alsaggaf

- 10:30 – 10:40 Rate of Full Publication of Papers Presented During the First Six SANS Annual Scientific Meetings: a Bibliometric Analysis
Prof. Abdulhakim Jamjoom
- 10:40 – 10:50 2nd Look for Neurosurgical Training- A need for strategic plan
Prof. Ahmed Ammar
- 10:50 – 11:00 Discussion

Session VII: Medico-legal Neurosurgery

Chairmen: Dr. Maher Hassounah and Dr. Ali Bin-Salamah

- 11:00 – 11:20 Medical malpractice in Saudi Arabia; a neurosurgeon view
Prof. Zain Alabedeen Jamjoom
- 11:20 – 11:35 Don't burn your fingers! - Do the medico-legal issues hinder or help neurosurgical practice
Prof. Ahmed Ammar

- 11:35 – 12:00 UK experience: 10 years of medico-legal practice
Dr. Emmanuel Labram
- 12:00 – 12:20 Medical malpractice in United States
Prof. Marion Walker
- 12:20 – 12:30 Discussion
- 12:30 – 13:30 Prayer and Coffee Break

Session VIII: Functional Neurosurgery and Epilepsy

Chairman: Dr. Ahmed Alkhani and Dr. Abdulrahman Sabbagh

- 13:30 – 14:00 Improvement of DBS accuracy by robot and 3D pre-operative imaging
Prof. Emmanuel Cuny
- 14:00 – 14:30 Deep brain stimulation for Parkinson's disease: «opening toward a new therapeutic area in functional neurosurgery
Prof. Patrick Mertens
- 14:30 – 14:50 Deep Brain Stimulation for Movement Disorders: Experience and Challenges in Saudi Arabia
Dr. Faisal Al-Otaibi
- 14:50 – 15:00 Deep Brain Stimulation for Status Dystonicus: New Multitargeting Method
Dr. Faisal Al-Otaibi
- 15:00 – 15:10 Extend of resection in supratentorial LG glioma as predictive factor for epileptological outcome
Dr. Fadi Ghareeb
- 15:10 – 15:20 Epilepsy Outcome After Cerebral Cavernous Malformations Treatment
Dr. Abdullah Alramadhan
- 15:20 - 15: 30 Operating on the Motor Cortex: Neuronavigation Anatomical Guidance and Electrophysiological Motor and Sensory Cortices Mapping
Dr. Ahmad Al Shenkiti
- 15:30 – 15:40 Discussion
- 15:40 – 16:00 Prayer and Coffee Break

Session IX: Young Neurosurgeons- Session 2

Chairwomen: Dr. Taghreed Alsinani and Dr. Deema Alsehli

- 16:00 – 16:30 Poster presentations (4 min each presentation)
- Primary spinal epidural extraskelatal Ewing's sarcoma mimicking epidural abscess case report and literature review.
Dr. Khaled Abdulshafi
- Tumor and Neurovascular structures deformation after shunting and tumor resection.
Dr. Hala Albalawi
- Remote Intracranial Hemorrhage From Cerebral AVM.
Dr. Yoseri Alhems
- Primary Pituitary Esthesioneuroblastoma.
Dr. Adam Marzouq
- Posterior Epidural migration of Lumber intervertebral disc: case report and systematic review of the literature.
Dr. Ahmed Alaqeel
- The Role of Tonsillar Herniation in Predicting Shunt Dependent Hydrocephalous in Children with Posterior Fossa Tumor.
Dr. Jehad Ahmed
- Traumatic Brain Injury: Are We Following the Guidelines?
Dr. Nawaf Alshahwan
- 16:30 – 18:00 Special Lecture: Surgical Anatomy of Skull base
Prof. Saleem Abdulrauf

GALA DINNER AT KINARY BEACH RESORT

20:00 – 23:00

Session X: Spine 3

Chairmen: Dr. Mohammed Abdulrahim and Dr. Salah Al-Akkad

- 8:00 – 8:30 Spinal cord stimulation for pain treatment, «past, present and future»
Prof. Patrick Mertens
- 8:30 – 8:55 New anchoring solutions in osteoporotic bone and revision pedicle screw surgery
Prof. Óscar Alves
- 8:55 – 9:20 Treatment of Spinal Fractures with a New Expandable Titanium Device
Prof. Óscar Alves
- 9:20 – 9:40 Ventral Thoracolumbar Reconstruction Options: Vertical Distraction Cages
Prof. Haroon Choudhri
- 9:40 – 10:00 The evolution and practical applications of neurophysiological monitoring in intramedullary spinal cord surgery
Dr. Emmanuel Labram
- 10:00 – 10:10 Pattern of spine tuberculosis with ethnic correlations in an academic center in western Saudi Arabia
Dr. Mohammed Bangash
- 10:10 – 10:20 Spinal Tuberculosis: The role of surgery
Dr. Khaled Abdeen
- 10:20 – 10:30 Nerve transfer in tetraplegic patients to optimize hand function
Dr. Bassam Addas
- 10:30 – 10:45 Discussion
- 10:45 – 11:00 Coffee Break

Session XI: Young Neurosurgeons - Session 3

Chairman: Dr. Ahmed Alhindi and Dr. Tariq Alghamdi

- 11:00 – 11:30 En-bloc multilevel tumor resections and reconstructions in the mobile spine
Prof. Peter Varga
- 11:30 – 11:40 Second cervical vertebral tumors
Dr. Faisal Alabbas
- 11:40 – 11:50 Efficacy of Perioperative Epidural Steroid in Lumbar Discectomy: A Systematic Review
Dr. Abdulhadi Al-Ghahtani
- 11:50 – 12:00 Primary spinal epidural extra skeletal Ewing's sarcoma mimicking epidural abscess case report and literature review
Dr. Khaled Abdulshafi
- 12:00 – 12:05 Discussion
- 12:05 - 13: 00 Special Lecture: Surgical Anatomy of Cerebral Cortex
Prof. Saleem Abdulrauf
- 13:00 – 13:10 Closing Remarks
- 13:10 – 15:00 Prayer and Lunch Break
