### **Modern Co-Site RF Interference Issues and Mitigation Techniques**

**2/28/2017 – San Jose, California:** RFMW, Ltd. announces a general educational White Paper from Southwest Antennas for business professionals and technical staff titled “[Modern Co-Site RF Interference Issues and Mitigation Techniques](#)”. RF co-site interference has become a major issue with the proliferation of antennas, particularly in dense urban areas. This paper offers a practical perspective for those using or specifying new RF wireless systems about what RF co-site interference is, where it comes from, and some of the most common techniques and tools that are available in today’s market to solve these RF co-site interference problems. As their franchised distributor, RFMW supports specification and selection of Southwest Antennas products for a multitude of applications.
