

Instrumentation

An Instrumentation Solution Center for the Mid-Atlantic region

**PROCESS
CONTROL**

The industries we serve:

- Petrochemical
- Chemical processing
- Oil and gas
- Power generation
- Military and government
- Semiconductor
- Biopharmaceutical
- Analytical industries

PROCESS CONTROL

RG Group is an industry leader in the distribution of high quality, critical flow and ultra high purity components and systems.

Our Instrumentation Solution Center will stock to support you OEM, MRO and project requirements.

- Instrumentation-grade fittings and valves
- Flow meters
- Pressure regulators
- Process tubing

OUR SERVICES INCLUDE:

- Engineered solutions
- Orbital welding
- Vendor managed inventory
- Custom fabrication assemblies
- Tube and pipe bending
- Tube fabrication
- Safety seminars
- Custom hose assemblies

RG GroupSM

Innovative Motion Control and Fluid Handling Products and Solutions

Instrumentation

An Instrumentation Solution Center for the Mid-Atlantic region

**PROCESS
CONTROL**

RG Group combines motion control and fluid process expertise with global product technology, reducing procurement and energy costs to increase **your** productivity and profitability.

With engineering and custom fabrication capabilities, we reduce operating costs with the innovative design and supply of hydraulics, electromechanical or pneumatic components and systems solutions.

Process Control

- Fittings and valves
- Manifolds and regulators
- Flow meters
- Emissions monitoring
- Multitube umbilicals
- Expansion joints
- Industrial hose

Analytical Systems

PFA / PTFE Products

Filtration

- Inline
- Carts
- SMR Submicron removal
- Sampling systems
- Fluid analysis
