

Cracks or leaks a problem?

Minimize your downtime!

It's a fact of life. A pump fails. A cylinder leaks. A shaft breaks. When a hydraulic or pneumatic component fails or wears out, you need to get it fixed or replaced... **FAST!**

Our large inventory, experienced factory-trained technicians and extensive equipment allow us to complete your job with minimum downtime.

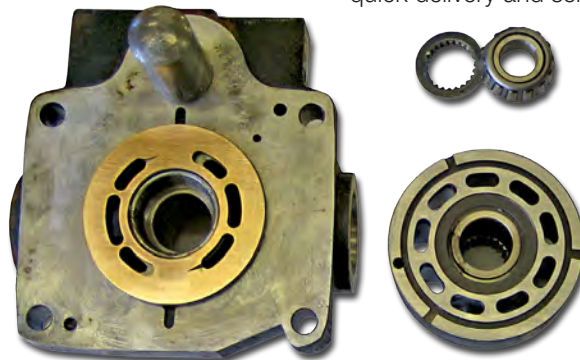

Our field service staff can help diagnose your system and make recommendations to prevent future failures.

We rebuild / repair all makes of:

- Hydraulic pumps and motors
- Hydrostatic transmissions
- Hydraulic and pneumatic cylinders
- Hydraulic and pneumatic valves
- Piston and bladder type accumulators
- Pneumatic compressors and blowers
- High pressure hydraulic tools
- Hydraulic power units

We Offer:

- State-of-the-art facilities with over 15,000 square feet of repair, testing and diagnostic space
- Factory authorized warranty and repair service for many major brands
- **Expert failure analysis service**
- In-house hydraulic, pneumatic and electromechanical engineering support
- Service trucks and field service technicians for troubleshooting and maintenance on your equipment
- Certified technicians (welding, hydraulic, electrical)
- Full machining, welding and painting capabilities
- Metal tubing and hose fabrication shops in several locations
- Large inventory of parts and raw material for quick delivery and service
