

Switch Power Packs, Battery Chargers, DC-DC-Converters

RPL 60W Type 60 Watt

input range AC 90V up to AC 264V or DC 100V up to DC 375V

Easy adjustment of wide range output voltage on front plate via potentiometer.

Units RPL operate either in constant voltage operation or in constant current operation, therefore allowing application as battery chargers also.

Custom makes on special request

- Special features:**
- output voltage DC 12, 24 or 48V, wide range adjustment
 - connection in series and parallel
 - high efficiency
 - compact and robust design in plastic housing
 - easy fitting onto DIN-rail
 - protection class I
 - interference emission EN 61000-6-3, EN 55011 class B, EN 55022 class B (Telecom)
 - interference immunity EN 61000-6-2: ESD, electromagnetic irradiation, Burst, conducted interference immunity, mains voltage dips
 - overcurrent limiter and short-circuit protection
 - overtemperature protection
 - inrush current limiter, enabling application of conventional circuit breakers.
 - overvoltage limiter
 - status display: LED
 - all power packs series RPL can also apply as **chargers** (type ...WL) or
 - **DC-DC-converters** (reverse polarity protection on input available).

- Options:**
- series diode on output side: additional letter - S (for example RPL 242.5W-S)
 - instead of interference contact: temperature compensation additional letter - T (for example RPL 242.5W-T)
