

# New 973 MTRJ Field

## Ethernet Connection System For Harsh Environment

- The MTRJ Field offers an easy system to upgrade from a standard to an environmental MTRJ.
  - Sealed against fluids and dust (IP67),
  - Shock, Vibration proof,
  - No cabling operation in field and no tools required for installation,
  - Mechanical Coding / Polarization (4 positions).
- With the patented RJStop® system you can use a **standard MTRJ cordset** in a protective metallic plug which will protect it from shocks, dust and fluids.  
No hazardous in-field cabling !

This metallic plug is connected into a receptacle, using a Tri Start Thread coupling mechanism (MIL-DTL-38999 series III type) with an anti-decoupling device for high vibrations.

*Transform  
your MTRJ patchcord  
into an Environmental  
Connector*

### Applications

Data acquisition and transmission in Harsh Environment

- Railways
- Radars
- Shelters
- Battlefield
- Communication systems
- Navy
