

**WAVE BRAKE**

**GET TO THE MESS WITHOUT A SPLASH**

**REGULAR MOP BUCKETS ARE INEFFICIENT AND HAZARDOUS.** They often cause additional spills when you're moving or cleaning. But WaveBrake bucket technology reduces splashing for more efficient mopping, cleaner floors and an overall safer environment.

## CAUSES OF SLIPS, TRIPS-AND-FALLS

55% WALKING SURFACES

24% FOOTWEAR

10% HAZARD WARNING

8% TRAINING

3% FRAUD

**8 SECONDS**

Every 8 seconds someone slips and falls. <sup>1</sup>

**65 PERCENT**

Sixty-five percent of fall-related injuries occur as a result of same-level falls. <sup>2</sup>

**\$70 BILLION**

Costs of employee slip-and-fall accidents are approximately 70 billion per year. <sup>3</sup>

<sup>1</sup> National Floor Safety Institute (NFSI)   <sup>2</sup> Bureau of Labor Statistics (BLS)   <sup>3</sup> National Safety Council (NSC)

## WAVEBRAKE BAFFLES

Disrupt the formation of waves

# 40% LESS SPLASHING

**OUR REVOLUTIONARY BUCKET** with molded-in WaveBrake baffle technology disrupts wave formation, reducing splashing up to 40% for cleaner floors, more efficient mopping and safer conditions for customers and staff.

800.347.9800

# 50,000 WRINGING CYCLES

## WRINGERS BUILT TO LAST.

Preferred by professionals, the down-press wringer is tested to exceed 50,000 wringing cycles. The side-press wringer is tested to exceed 40,000 cycles. Average injection molded wringers only last approximately 860 cycles.

### TUBULAR STEEL CONSTRUCTION

The innovative ergonomic wringer handle is made from tubular steel with a contoured comfort grip.

### NON MARKING CASTERS

Helps protect floors, keeping public areas looking their best.

### FOOT PEDAL WATER RELEASE

Foot pedal drain for convenient dumping

\*available only in 44- quart size

**MANUFACTURED IN WINCHESTER, VA** using a state-of-the-art production process, WaveBrake buckets and wringers feature structural web molded plastic construction to ensure the highest quality and durability. From the raw materials to the finished product, Rubbermaid Commercial Products monitors every step of the manufacturing process to ensure we consistently deliver WaveBrake's industry-leading performance.

## WRINGERS FOR ALL USER TYPES

### WAVEBRAKE DOWN-PRESS WRINGERS

The WaveBrake down-press wringer is engineered to be 30% more efficient than side press wringers, allowing users to get the most water out of the mop on every wring. It's designed for use with 35- and 44- quart WaveBrake buckets, making it the ideal solution for cleaning large areas.

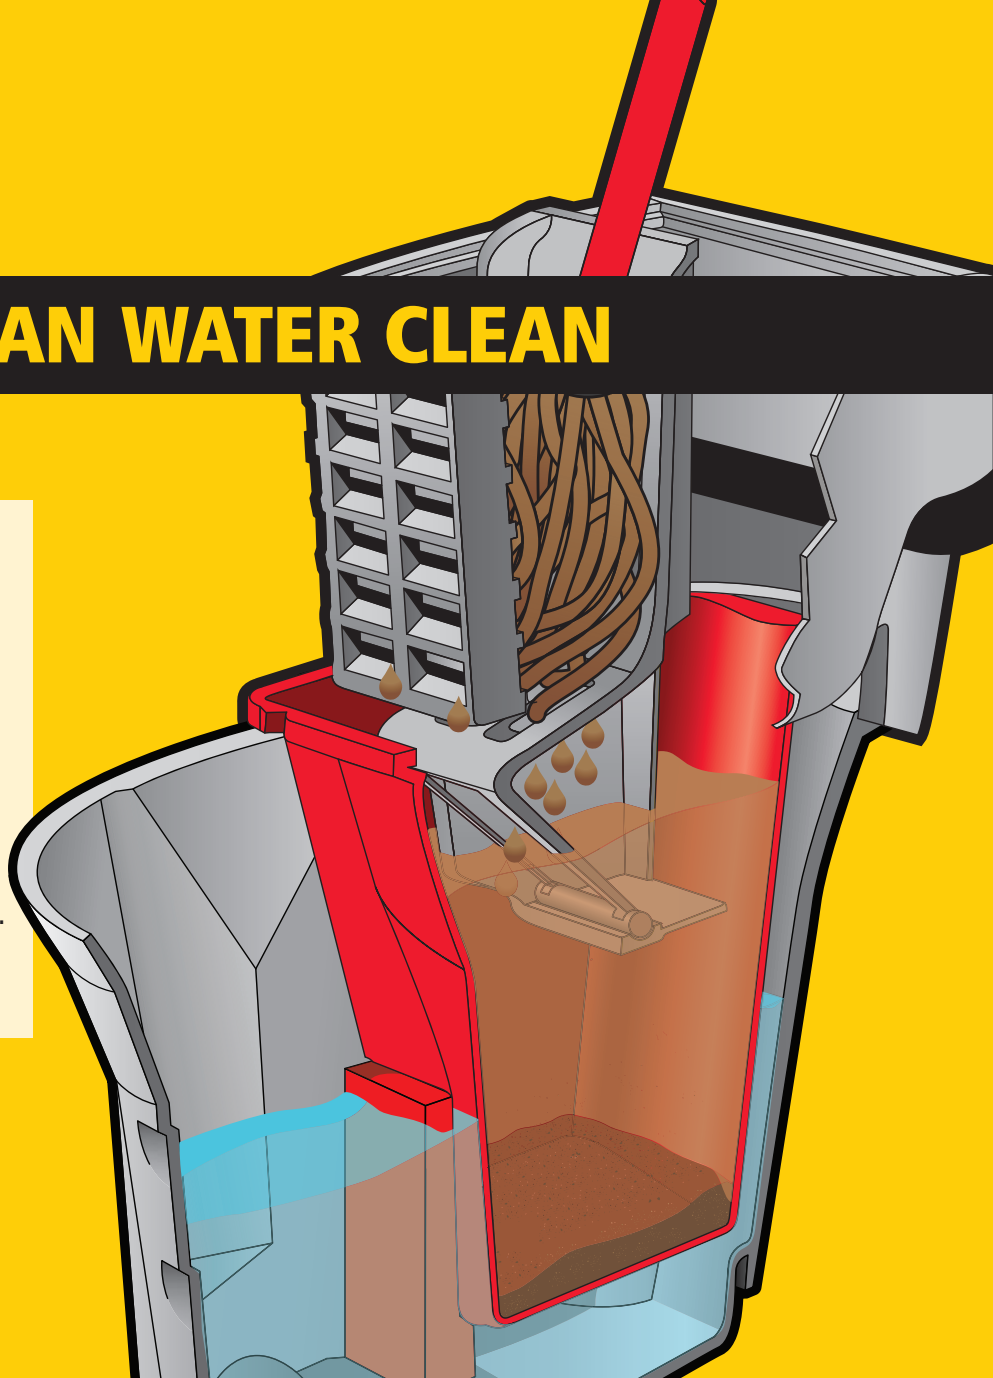

### WAVEBRAKE SIDE-PRESS WRINGERS

The WaveBrake side-press wringer provides users the flexibility to manage the wetness of the mop according to the cleaning situation. Designed to give users the feel and control that only a WaveBrake side-press wringer can deliver, it's proven to be 18% more efficient than other side-press wringers. Compatible with 26-, 35-, and 44- quart buckets.

## KEEP CLEAN WATER CLEAN

**THE WAVEBRAKE DIRTY WATER BUCKET** nests below the wringer to keep the dirty water separate from the cleaning solution.

- Preserves the quality and cleaning power of cleaning solution, so less solution is needed.
- Isolates dirty water for reduced risk of cross-contamination.
- Produces cleaner, less slippery floors.
- Divides liquid weight; less effort needed when emptying buckets.

## WAVEBRAKE TRANSPORTATION SOLUTIONS

### WAVEBRAKE TROLLEYS

- Includes 2 dirty water buckets and maid caddy
- Upright trolley handle for easy maneuverability
- Glides smoothly on Quiet Caster Trolley

### WAVEBRAKE MOPPING COMBOS

- Glides smoothly on Quiet Casters Dolly
- Includes dirty water bucket
- Compatible with Rubbermaid Cleaning Carts

## CLEAN UP WITH COLOR

**MORE CLEANING PROFESSIONALS TODAY USE COLOR-CODED EQUIPMENT**, and for good reason.

Color-coded buckets, handles and mops help reduce cross-contamination. And they can be organized by function, department or building area, making it easier to track supplies.

### **RECOMMENDED USAGE:**

Color-coding systems can vary by vertical and application; however, Rubbermaid Commercial Products, in alignment with industry experts, recommend the following system:

**RED:** High Risk Restroom Areas

**BLUE:** General Purpose Cleaning for Low Risk Areas

**GREEN:** General Food Processing, Serving and Bar Areas

**YELLOW:** Back of House Cleaning

**BLACK AND GRAY:** Front of House Cleaning

# A GREAT BUCKET DESERVES

## A GREAT MOP

### 30% MORE FLOOR COVERAGE

Cleans floors faster

### 25% LESS WEIGHT

Reduces effort

### MAXIMIZER BLEND

Absorbs 3X as much as cotton

### UNIVERSAL HEADBAND

Compatible with all standard mop handles
