75 Series Kingpinless™ Casters

Heavy Duty Kingpinless™ Casters

RWM Casters 75 Series industrial casters feature the patented Kingpinless™ caster design. The 75 Series is recommended for the most demanding heavy duty industrial caster applications and is available with up to 3" wheels for higher capacity applications. All swivel sections are supplied with a lubrication fitting for field maintenance. The 75 series is case hardened to provide an extended service life. It will not crack like through hardened or induction hardened construction provided by other caster manufacturers.

Our 75 series industrial casters are proudly made in the USA! Log in below to download free 2D or 3D CAD drawings and models of this caster. If our standard product line doesn't meet your specifications, give us a call. Custom design and production of custom casters for application specific standards is our specialty!

Swivel Sections and Cross Sections

KINGPINLESS™ CASTER SWIVEL SECTION

Raceway Diameter

Features

Raceway Design: Patented Kingpinless™ single ball bearing precision machined raceway hardened to 53 Rockwell C minimum. Swivel section features 3" diameter raceway with 1/2" ball bearings. The notched raceway is standard.

Capacity: 6,000 lbs.

Leg Thickness: 5/16" formed steel

Axle: 3/4" bolt with lock or slotted nut as required

Finish: Laguna Blue powder coat

Wheels: Wheels are available with either a 1" roller bearing which rotates on a hardened and ground spanner bushing or 3/4" tapered bearings that rotate on the axle. All wheels are equipped with a lubrication fitting.

Mounting Plate Size: 4-1/2" x 6-1/2" x 5/16"

Bolt Hole Spacing: 2-7/16" x 4--15/16", slotted to 3-3/8" x 5-1/4"

Mounting Bolt Diameter: 1/2"

Applications

The 75 Series typical applications include dollies, utility carts, tow line and platform trucks. It is also ideal for: tow lines, shock load applications and abusive conditions, production line dollies & trucks used in various industries including but not limited to: boat & ship molding and building, automotive, aerospace, metal fabricating, metal forging, heavy machinery and equipment, military equipment, mobile homes, etc. tractor pulled trailers, extreme duty platform trucks and material handling carts, air cargo and ground support equipment, storage tanks, gantries and heavy duty processing equipment, coliseum and gymnasium equipment, shipping/receiving carts, warehousing and freight terminal dollies and carts, heavy duty power towed application seen in tire manufacturing and countless other heavy duty applications.

Options

CWB: Cam Wheel Brake
DSL: Demountable Swivel Lock
HT: High Temperature Lubrication
LT: Low Temperature Lubrication
PCWB: Poly Cam Wheel Brake
SL: Swivel Lock
SR: Sealed Swivel Raceway
ZP: Zinc Plated
FICWB: Field Installable Cam Wheel Brake (FICWB Brake is for swivel casters only)
HTP: High Temperature Paint
FG: Foot Guard
LSL: L-Type Swivel Lock
VSL: Vertical Swivel Lock
SWP: Sweeper Brush

Benefits of Kingpinless™ Raceway

Our patented offset precision-machined raceway exerts radial force evenly where there is full contact between the ball bearing and the raceway. RWM's unique design adds more mass at key points. This, plus more thorough heat treatment, provides additional strength and combats brinelling into the core material.

The Result:

- No direct "hammering" forces on the intersections of the raceways
- Vastly reduced raceway wear
- Elimination of the "pull apart" forces of stress in the swivel section
- Smoother swiveling action
- High maneuverability
- Longer service life
- Less maintenance
- Extra impact resistance
- High radial force absorption

Optional Mounting Plates

Optional Top Plate Number	Mounting Plate	Bolt Hole Spacing	Bolt Size
90ST***	6" x 7"	4-5/8" x 5-1/2" slotted to 4-3/8" x 5-5/8"	1/2"
90RT	6" x 7"	4-5/8" x 5-1/2" slotted to 4-3/8" x 5-5/8"	1/2"
43ST	5" x 5-1/2"	4-1/8" x 4-1/2"	3/8"
43RT	5" x 5-1/2"	4-1/8" x 4-1/2"	3/8"

To order a rigid caster, change the "S" to "R" in the model number. For example: "75-CIR-1030-R". To order a rig only, omit the blue letters. For example: "75-1030-S". Dimensions shown are nominal. If precise dimensions are required, consult your RWM representative. For approximate weight of our rigid caster, deduct 3.9 pounds.
