# Economy Inverted Air Cargo Casters

*Light Duty Casters*

This light duty air cargo caster has been optimally designed for air cargo and light duty conveyor applications. It features a heat-treated, hardened raceway for added durability and offers a 300 pound capacity. The light weight phenolic and nylon wheels offer high impact resistance, ease of rollability and resistance to moisture and chemicals. This caster includes a dust cap and thread guards.

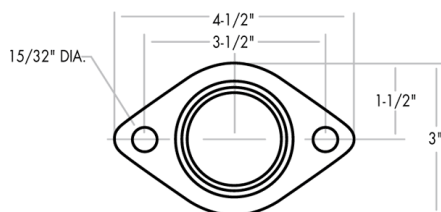

26-NYB-0312-S-TG-LD

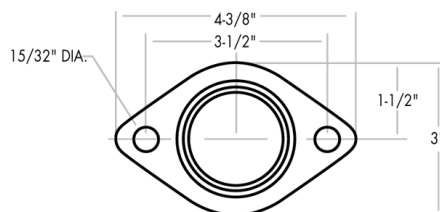

26-DUB-0312-S-TG-LD

## Top Plates

Standard Top Plate for DUB-0312-S-TG-LD

Standard Top Plate for 26-NYB-0312-S-TG-LD

## Features

**Raceway Design:** Hardened

**Dust Shield, Water Guard & Thread Guard:** Prevents wheel and swivel assembly from becoming contaminated

**Capacity:** 300 lb.

**Finish:**

DUB = Zinc plated to protect against corrosion

NYB = Type II Gold zinc plated to protect against corrosion

## Applications

- Airline and Aerospace Industry Applications
- Textile Industry Applications
- Conveyor Applications
- Light Duty Air Cargo Handling
