Machined Steel Flanged Wheels

FF Wheels

RWM Casters Machined Steel Flanged Wheels are designed with the most gruesome applications in mind. These industrial track wheels optimize production flow by running on tracks instead of the production floor itself, preventing damage to your floors and aiding in rollability. Capable of handling the largest loads, these wheels are the best solution to move the heaviest of projects and are proudly Made in the USA! RWM's machined steel flanged wheels are induction heat treated for extended service life and long term abuse.

FFP-0520-10-S

Features

Temperature Range: -50° to +800°F

Finish: Painted

Bores: Special sizes available upon request

Keyways: Can be installed on most sizes

SINGLE FLANGE: "S" after bearing #

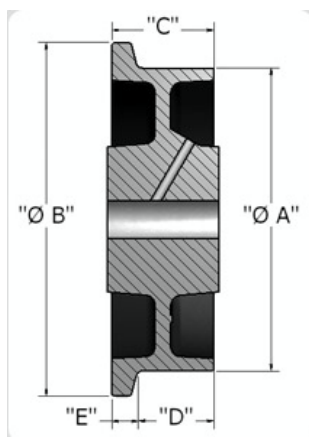

DUAL FLANGE: "D" after bearing #

HUB LENGTH: includes spanner & roller bearings installed

options

WS Wheel Seals

CONTACT RWM FOR MORE OPTIONS.
