

PHOTOMETRIC & GONIOPHOTOMETER TRAINING—MARCH 29-31, 2017

Raising the Bar through Training

STS provides comprehensive customer training to utilize their testing personnel and equipment to their fullest potential. By attending this training, attendees will be given the opportunity to increase their knowledge and understanding of photometric basics and goniophotometer (STS and other manufacturers) functions and capabilities, through hands on learning experiences.

Location and Date

Training will occur at Sapphire Technical Solutions.

Located at: **10230 Rodney Street Pineville, NC 28134**

Date: **March 29-31, 2017**

AP-60 Heavy Duty Goniophotometer

Topics covered during training

- **Test Equipment** - Proper goniophotometer system set up procedures, calibration and hands on use
- **Introductory Photometry** - Basic principles using proper units and equipment
- **Spectroradiometry and Colorimetry**
- **Interpreting test results and reports**
- **Regulations** - Domestic and International (FMVSS/CMVSS 108, SAE, UN-ECE, and others)
- **Performance protocols** - IIHS, NHTSA-NCAP, Consumer Reports
