

STI Wireless Alert Series with Voice Receiver

STI-V34300

STI-V34400

STI-V34600

STI-34188

PRODUCT OVERVIEW

The Wireless Alert Series wirelessly monitors up to 4 different STI devices at a single, convenient location. When the included 4-Channel Voice Receiver detects a tripped site, it sounds programmable voice messages to alert which transmitter has been activated. The receiver offers ten tones/tunes and 53 selectable words (available in English or Spanish). Supervised for low battery and signal reception, it operates up to 300m (line of sight). Monitors: open/closed garage door, mail delivery, fence gate and medicine cabinet, etc.

HOW IT WORKS

Wireless Garage Sentry® Alert (STI-V34300)

Included receiver sounds programmable voice message when garage door is opened and provides an open or closed door status.

Wireless Universal Alert or Wireless Door Chime (STI-V34400 or STI-V34450)

Universal Alert will let you know if the monitored site is tripped. A wireless signal is sent to the included receiver. Can be used on a medicine cabinet, fence gate, window, shed, etc.

Wireless Doorbell Button Alert (STI-V34600)

Water/weather resistant button sends a wireless signal to the receiver when pressed. Operates up to 150m (line of sight).

Wireless Mailbox Alert (STI-V34200)

When a mailbox door is opened, the included receiver will sound a programmable voice message, eliminating repeat trips to an empty mailbox.

8-Zone Relay Board (STI-34188)

Provides an individual dry Form "C" contact per zone. Relays follow input to receiver supplying an individual output per zone. For use with STI-34108 only.

KEY FEATURES

General Information

- Wirelessly monitor up to 4 different devices and know what is happening in your home/building.
- Receiver will sound programmable voice messages, alerting a monitored site has been tripped.
- One year warranty.

Design

- A wireless signal is sent from the sensor to the receiver, alerting a monitored site has been tripped. The 4-Channel Receiver beeps and flashes, the 4-Channel Voice Receiver sounds a programmable voice message.
