

## End-of-Life Notification

January 5, 2015

Valued Customer or Distributor:

This letter is to confirm to your company that Sullins Connector Solutions is discontinuing the D-Sub product line. The Sullins D-Sub Series (SDS series) will be transitioned into an End-of-Life status without replacement on June 30, 2015. We are hereby giving notice of these product changes in order for your company to adjust its product purchasing records, or to make any final purchases of the discontinued products that are still in supply. Sullins will make every effort to accommodate final order demands up until the last production date of June 30, 2015.

D-Subs represent a very small percentage of Sullins Connector Solutions overall products. As these are industry multi-source products, we expect that replacements will be easily identified.

Sullins Connector Solutions sales and support personnel stand ready to assist you in placing final orders, or in providing any product information you require.
