

# DUAL USB CAR CHARGER

WD01

Car Charger | WD01

## 4.8A high-class dual USB charging port. Charging two mobile devices simultaneously

With 4.8A(2.4A+2.4A) of output power and a dual USB charging port, it can simultaneously charge your mobile phone and tablet, or even charging two iPads at once won't be a problem at all. Team Car Charger Dual WD01 allows you to quickly extend the battery life of two mobile devices while you driving.

## Ultra large output current, ultra-fast charging speed

Support quick charge technology. Each USB port has an independent output up to 2.4A. It is able to effectively shorten the charging time and fully charge your mobile devices in no time.

Fast Charging  
2.4A

### The latest fashion trend with a refined quality

With its matte aluminum plate and leather paint design, not only it feels comfortable holding it, but also keeps from falling off the hand. There is Midnight Black and Bright Silver two colors available to choose from. It is light and compact as well as fine quality. This is definitely a premium car charger worth you buying.

### Cool circular blue LED power indicator, easy to use for night driving

After the power is on, Team Car Charger Dual WD01's circular design LED power indicator will illuminate with a cool, dim blue light. It's not only easy to use for driving at night, but it can also be an eye catching fashion accessory in the car.

### Carefully selected smart electronic components for complete safety protection

The latest smart control chips that Team Car Charger Dual WD01 is using can effectively improve charging efficiency. In addition, with a series of strict testing and protection mechanism such as over current protection, short circuit protection, vibration testing, temperature impact testing, scratch testing, plug and pull testing, etc., we are able to ensure a safe and secure product.

## Compatible with all brands of mobile phones and tablets.

### Auto adjustment for output voltage.

WD01 car charger is not only compatible with every brands of mobile phones and tablets including Apple, Samsung, LG, HTC, ASUS, Mi, etc., it can also automatically adjust output voltage specifically for each different device to achieve best charging efficiency.
