

USB DRIVE COLOR SERIES C151

USB Drive | C151

Team USB Drive Color Series | C151

Simple and exquisitely compact design

C151's minimalist design with a clean white color shows us what smart living with a fashionable twist is all about. It is made out of one piece and its round look creates a close feeling to the users. With a compact size, as small and light weight as a coin, you can access and save your important data and treasurable memories anywhere, at any time!

Comprehensive 360 degree ergonomic design

The combination of a comprehensive ergonomic design and a simple streamline design makes it easy and convenient for users to operate with just one hand. All your important data is at the grasp of your fingertips!

Thoughtful design of a strap hole makes it easy to carry around

C151 is conveniently designed with a strap hole which is easy for users to carry around. The fashion strap can be turning into a fashion accessory and match with your desired personal items. By hanging it on your personal items, you can store precious memories at anytime.

COB assembly process which offers an all-around protection in waterproof and dust-proof

In addition to the stylish and smart look of a clean white color, C151 is made by COB (Chip On Board) packaging technology which offers waterproof and dust-proof protection. It also avoids data corruption or data loss which caused by external forces during the operation. It provides an all-around protection to every moment of your precious memory.

Matte and gloss design with multi layers

In color design, a simple and sleek white is the main color for C151. To emphasize the sense of depth between the cap and the body of the USB drive, we use elegant matte finish and bright white glossy finish separately. By adding light and shadow, and multi layers of colors to create a visual effect that gives you a twist in your smart living.
