

USB Disk | M131

Team USB OTG (M131)

The global popularity of smartphones/tablet PCs has led to increased inquiries for peripheral mobile devices and applied products. In view of this trend, Team Group Inc. launched a whole new Mobile series portable storage products exclusively designed for smart mobile devices in order to share video and files without wires and conveniently connect computers and mobile devices.

■ **Three functions that can be , operated with ease.**

M131 is the Team Mobile series flash drive that takes on the dual-piece 2-in-1 concept, with the dual interface of Micro USB & standard USB2.0 and three functions. Through the Micro USB interface, documents and video files in an Android mobile device arecan be stored in M131, and previously stored files can also be directly browsed. M131 also has another added function: The Micro USB to USB adaptor. In addition to the original flash drive, it can be connected to other USB interface devices, such as a keyboard, mouse, and other USB products. This allows the use of the mobile devices to be more diversified. At the same time, M131 is also a standard USB2.0 flash drive that can be independently connected to the computer., or it can be connected to a computer, USB interface device, or mobile device throughWith M131, you can connect computer, the devices with USB interface and mobile devices with ease.

■ **Share life through instant transmission.**

The Micro USB interface of M131 can be connected to a mobile phone and tablet PC with the maximum transmission bandwidth of 480Mbps, which is far higher than Wi-Fi and Bluetooth. It can provide fast data transmission and save mobile Internet usage. It also allows video data sharing any place and any time even in places without wireless hotspots. On the other hand, it can directly access data on the computer through the USB 2.0 flash drive, thereby allowing users to enjoy high quality mobile storage in daily life.

■ Thoughtful design, easy portability.

The whole new M131 UFD comes in a compact size and is made from matte anti-fingerprint material has a Micro USB slide cap design that prevents gathering dust and collisions. Meanwhile, it eliminates the worry of losing the cap. In addition, M131 also comes with a strap hole with slings, which is more convenient to carry. The 2-in-1 design allows the USB 2.0 flash drive and Micro USB to be reversely plugged, thus avoiding the trouble of missing pieces.

■ Capacity expansion, unlimited storage.

Users often download large amounts of video data in Smartphone/tablet PCs, however mobile devices with a high built-in capacity vary greatly in price and are expensive to buy. M131 is available in three capacities: 8GB, 16GB, and 32GB, which is the perfect solution for modern people faced with the problem of insufficient built-in storage capacity in mobile devices.

Main Feature

- Equipped with USB 2.0& Micro USB dual transmission interface.
- Supports smartphones and tablet PCs with OTG function.
- Supports hot swaps and plug-and-play.
- Compatible with USB 1.1 transmission interface.
- Equipped with Micro USB to USB adaptor function,can be connected to other USB devices without a PC.
- Compact and lightweight, with thoughtful design.

Specification

Item	Specification
Model	M131
Interface	USB 2.0 & Micro USB
Capacity	8GB 、 16GB 、 32GB
Color	Black
Power source	DC +5V
Dimensions	44 (L) x 16.6 (W) x 9.4 (H)mm
Other	Support power saving mode
LED Reveal	No
Warranty	Lifetime warranty
Weight	6.6g
Operating system	Android , Windows 2000 / XP / Vista / 7 / 8 , Linux2.4 , Mac

Team P/N	Capacity	Color
TM1318GB01	8GB	Black
TM13116GB01	16GB	Black
TM13132GB01	32GB	Black
