

NE-038 personal mosquito repeller

with super bright white color LED torch

*** NO CHEMICAL * CONVENIENT * ENVIRONMENT FRIENDLY ***

Mosquito carries serious diseases. Portable ultrasound electronic mosquito repeller NE-038 utilizes a most effective and environment friendly technology to repel the mosquito. This unit emits ultrasound imitating the wing speed of male mosquito to repel the pregnancy female mosquito who is the only one bite and fears most of this ultrasound, thus creates a personal mosquito-free zone. NE-038 is most suitable for fishing, camping, picnic.....and much more outdoor activities as well as indoor use.

NE-038 is internally built-in with a **Voltage Booster** which almost double the effectiveness to conventional electronic mosquito repellers. It covers about 25sq.ft. area.

Features:

- Ultrasound electronic mosquito repeller, safe for family and pets
- Built-in unique voltage booster to enhance the effect
- Super bright white color LED torch
- Stylish and compact size
- Uses 2pcs AG-13 batteries (included)
- Supplied with a clip and color string

Unit Size: D=20 L=80 mm
