

Welcome on Board

The Würth Elektronik Group with more than 8000 employees in 50 countries manufactures and sells electronic and electromechanical components, circuit boards and intelligent power and control systems. The business unit Würth Elektronik eiSos with headquarters in Waldenburg, Germany, is specialized on electronic and electromechanical components and one of the most successful in the Würth Group.

Heading for: The future!

Creative thinker wanted.

Product Developer (m/f) in the field of Wireless Power Transfer

Munich-Garching | Ref.-No. 468

Your tasks on board

- Devise test series, product qualifications and handle customer complaints in our laboratories
- Oversee custom-specific product developments and corresponding projects globally
- Teach other technical staff and our sales team about new and existing products
- Technically-focussed product development in collaboration with international production facilities while taking into account the requirements of IC manufacturers

Your requirements

- University degree in Electrical Engineering, Communications Technology, Physics, Physical Engineering or equivalent
- Basic knowledge of inductive components
- Experience in sales is a plus
- Business fluent in English and German
- Willingness to travel internationally
- Your strengths: able to work in a team, structured and independent way of working

Your application

Katja Schumann looks forward to receiving your application. Please indicate your earliest possible entry date and your wage expectations.
