## 3G60 CABLE KITS FOR THE CISCO 10K uBR ROUTER

White Sands Engineering now offers 3G60 cable kit configurations for Cisco's 10KuBR Router. These new kits are available in both stock and custom lengths, and typically include only upstream cable assemblies and associated headers as needed to connect to the line card, RF switch or customer plant. And we've simplified your installation by developing a clearly labeled and color-coded F feed-thru 20 port patch panel.

Not sure what you need? Let us help you design the cabling solution that best meets your requirements. Contact your local TVC representative at 800-644-6074, or our Cisco Applications Engineer, Dan Hamlett at 800-586-7377, x4205 or [dhamlett@tvcinc.com](mailto:dhamlett@tvcinc.com).

### **800-CAB-RFSW3G60-TIMM2 - Card to RF Switch KIT, CISCO RF GWAY 3G60 (2) UCH2 TO (2)HEADER BLK, 1METER**

- 2 – 5 packs MCX-MCX (RD, WH, BL, GN, YL), 37"
- 2 – 5 packs MCX-MCX (VI, BK, BR, GY, OR), 37"
- 2 – MCXHEADERBK
- 2 – 133-8447-046 (UCH2)

### **800-CAB-RFSW3G60-TIMF2 - Card to Customer Plant KIT, CISCO RF GWAY 3G60 (2) UCH2 TO (20) F(M), 3METER**

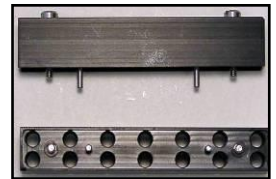

- 2 – 5 packs MCX-F (RD, WH, BL, GN, YL)
- 2 – 5 packs MCX-F (VI, BK, BR, GY, OR)
- 2 – 133-8447-046 (UCH2)

### **800-CAB-RFSW3G60Q-TPMF2 - RF Switch to Customer Plant KIT, CISCO RF GWAY 3G60 (2) HEADER BLK TO (20) F(M), 3METER**

- 2 – 5 packs MCX-F (RD, WH, BL, GN, YL), 118"
- 2 – 5 packs MCX-F (VI, BK, BR, GY, OR), 118"
- 2 – MCXHEADERBK

UCH2 – RF Switch Card

MCXHEADERBK – RF Switch
