Installing the Driver of your Plotter- / Engraver

By installing your plotter / engraver software the driver for your device will be pre-installed. When the device is switched on after the software setup, Windows completes the installation of the driver installation automatically.

Start the plotter / engraver software by double clicking on the setup file (<Software name>_setup_<version>.exe).

Please leave your plotter / engraver switched off during the software setup.

The driver is compatible with the windows versions 2000, XP, Vista, 7, 8, und 8.1.

The installation process is described in detail.

1. Vista and Windows 7

 During the installation of the plotter / engraver software a window "Device Driver Installation Wizard" appears. Click on "Next" to start the driver installation.

2. When the message: "Windows can't verify the publisher of this driver software" appears, click on "Install this driver software anyway".

3. Click on the "Finish" button to complete the driver pre-installing process.

3. Windows XP

 During the installation of the plotter / engraver software the message "The software you are installing... has not passed Windows Logo testing..." appears. Click on "Continue Anyway".

2. At the end of the installation, you will be asked to restart your computer. Click on **OK** to restart. Sign in with your administrator account.

3. Connect the plotter / engraver to your computer and switch on.

The **"Found New Hardware Wizard"** starts. When asked **"Can windows connect to Windows Update to search for the software?**", choose **"No, not this time"**.

Found New Hardware Wiz	zard
	Welcome to the Found New Hardware Wizard Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission). Read our privacy policy
	Can Windows connect to Windows Update to search for software? Yes, this time only Yes, now and every time I connect a device No, not this time
	Click Next to continue.
	< Back Next > Cancel

4. When asked **"What do you want the wizard to do?"** Choose **"Install the software automatically (Recommended)"**.

5. When the message "The software you are installing... has not passed Windows Logo testing..." appears, click on "Continue Anyway".

Hardwa	re Installation
£	The software you are installing for this hardware: Printers has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.) Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.
	Continue Anyway STOP Installation

6. Click on the "Finish" button to complete the driver installation.

The plotter / engraver can now be used. You can sign in with your user account.

7. Windows 2000

1. During the installation of the plotter / engraver software the message window "Digital signature not found" appears.

Answer the question "Do you want to continue the installation?" with "Yes".

Digital Signature Not Fou	nd	- Ett.	×
	The Microsoft digital signature affirms that software has been tested with Windows and that the software has not been altered since it was tested. The software you are about to install does not contain a Microsoft digital signature. Therefore, there is no guarantee that this software works correctly with Windows. Printers If you want to search for Microsoft digitally signed software, visit the Windows Update Web site at http://windowsupdate.microsoft.com to see if one is available. Do you want to continue the installation?		
	Yes	No More	Info

- 2. At the end of the installation, you will be asked to restart your computer, click on **OK** to restart. Sign in with your administrator account.
- 3. Connect the plotter / engraver to your computer and switch it on.
- 4. The message window "**Digital signature not found**" will appear again. Answer with **"Yes"**.

The plotter / engraver can now be used. You can sign in with your normal user account.
