

# WIMA QUALITY ASSURANCE

## DECLARATION OF COMPLIANCE

(Instead of a reply to individual questions regarding REACH)

**Components:** WIMA Capacitors

**WIMA Type:** all ranges

**Ref:** Inquiry about Compliance to Regulation (EC) No. 1907/2006 (REACH)

The WIMA Group is aware of the obligation about information in conjunction with captioned REACH regulation in case of products containing substances of particularly high concern (“**SVHC = Substances of Very High Concern**”).

Based on information about material composition of the raw and auxiliary materials used in our production being continuously updated by our suppliers it is to be established that capacitors of all WIMA ranges, i. e.

- Plastic Film Capacitors
- Metallized Paper Capacitors (WIMA MP EMI Suppression Capacitors)
- Double Layer Capacitors (WIMA SuperCap)

as well as the original packing materials used for dispatch of such components do not contain substances that are environmentally hazardous or of high concern, i.e. including SVHC as shown in the last amended version of the Candidate List – last updated: 20.06.2013 – published by the European Chemicals Agency (ECHA), and/or possible traces due to raw material impurities are of a concentration which does not require verification in the sense of the guidelines currently valid.
