# Chapter 1. General Information

## 1-1. Introduction

The PL-01030 is a very compact, low-power, fanless Micro PC that supports full functions. This product is appropriate for the projects requiring thin client architectures. Specific applications include: Network gateway appliance, security control, general Windows XP application (not heavy loading), or any project requiring extremely compact size, low power and fanless operation.

Inside the PL-01030 platform product is the IP-06060, a 3.5" SBC board featuring the AMD® CS5536 chipset and AMD® Geode™ LX800 500 MHz processor.

The product supports:

CRT and 24-bit TFT panels, one ATA-66 IDE device, one CFC socket, Dual Intel® 82551ER (or Realtek RLT8139CL+) Ethernet chipset with two RJ45 jack for 10/100Mbps, 4 COM ports, 4 USB 2.0 ports, one Parallel port & Microphone & Speaker out..

For additional details refer to IP-06060 Manual.

## 1-2. Specifications

### Specifications

#### General Functions

CPU	AMD Geode LX800 processor BIOS Insyde® 512KB Flash BIOS
-----	------------------------------------------------------------

Chipset	AMD CS5536 I/O Chipset Winbond 83627HG
---------	-------------------------------------------

Memory	One 200-pin DDR SO-DIMM socket support up to 1GB DDR 333/400 Memory Enhanced IDE Support one Ultra ATA-66 IDE
--------	---------------------------------------------------------------------------------------------------------------------

Parallel port Support SPP/ECP/EPP

Serial port	Three RS-232 and one RS-232/422/485 serial ports. IR interface Support one IrDA Tx/Rx header
-------------	-------------------------------------------------------------------------------------------------

Support four USB 2.0 ports: two on external Connector, USB connectors: two on Pin-header

Battery	Lithium battery for data retention up to 10 years(in normal condition) Watchdog Timer Software programmable, 1-255 level
---------	-----------------------------------------------------------------------------------------------------------------------------

Power management APM 1.2 compliant Flat Panel/CRT Interface

VGA Chipset	AMD Geode LX-800 Display memory Share system memory 2~254MB
-------------	----------------------------------------------------------------

Display type	Simultaneous supports CRT and 24-bit TFT LCD CRT Resolution support up to 1920 x 1440 @ 32bpp or Resolution 1660 x1200 @ 32bpp CRT & LCD simultaneous: up to 1024 x 768 @ 18bpp (60Hz)
--------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

LVDS (Optional)	Optional 18/24-bit LVDS Adaptor available Ethernet Interface R-053A for 24-bit LVDS; R-053B for 18-bit LVDS
-----------------	----------------------------------------------------------------------------------------------------------------

Chipset	Dual Intel 82551ER or Realtek RTL8139CL+ Ethernet interface PCI 100/10 Mbps Ethernet controller SSD Interface
---------	---------------------------------------------------------------------------------------------------------------------

One 50-pin CompactFlash™ socket Sound
------------------------------------------

Chipset	Optional AC 97 codec SoundBlaster Pro Hardware and Direct Sound Ready AC97 Audio controller, Digital Audio
---------	------------------------------------------------------------------------------------------------------------------

Audio interface	Mic in and Speaker out
-----------------	------------------------

Software Driver Supports for Windows XP Mechanical and Environmental

External Power Adaptor	5V, 25W Max. power requirements +5 V @2.4A,
Operating temperature	32 to 104°F (0 to 40°C) Dimensions w/o base kit; 146.1mm (L) x 51mm (W) X 222.5mm (H)
Weight	TBD (Kg) Net Weight

### 1-3. Mechanical Drawing

## Chapter 2. Installation and Configuration

### Installing the HDD

(1) Open the box by unscrewing the two screws from the bottom cover of PL-01030, remove the two brackets.

(2) Fix the HDD on the HDD bracket by screwing the four screws from the two sides of HDD bracket. Then connect the 44-pin HDD cable from the other sides of CPU board as pictured below.

(3) Connect the 44-pin HDD cable to CON 11.

## 2-1 Installing the memory

- (1) Open the box.
- (2) Insert the single slot DIMM memory into the socket on the back side

## 2-2 Installing the CF card

- (1) No need to open box, just plug into the hole between COM1 and COM4 connector as in the below picture. Note to face the CF card downsides.
