

Andrejs Rozitis Joins XetaWave as Manager of Customer Service

BOULDER, November 13, 2013 / -- XetaWave, a Boulder-based wireless technology provider, today announced that Andrejs Rozitis has joined XetaWave as Manager of Customer Service. In his role, Rozitis will be responsible for developing a world class customer support department and supporting processes to enable XetaWave to provide unparalleled service and support to its customers from concept to deployment. Specifically, Rozitis will manage pre-production testing, customer application testing, and field troubleshooting. He will also be responsible for writing white papers and serving as a key liaison between customers and the XetaWave engineering team to provide input for product development.

Craig Held, executive vice president, commented, "We are excited about Andrejs joining XetaWave. He has extensive radio experience, a broad familiarity with oil field and other industry applications, and a customer-centric 'can do' attitude so critical for ensuring that our customers achieve the highest performance and reliability from their networks."

Prior to joining XetaWave, Rozitis was a senior systems engineer with FreeWave Technologies. In his role he created a systems integration and test engineering group. Rozitis has a Bachelor of Science in Computer Engineering from the University of Calgary and is an avid outdoor sports enthusiast.

About XetaWave

Founded in 2010, XetaWave is developing the industry's most advanced, high performing, cost effective platform of software designed radios across multiple bands to meet the application needs of industries such as oil and gas, water and wastewater, electric power, and the military. Co-founded and led by Jonathan Sawyer and Robert Campbell, XetaWave is comprised of renowned experts in the wireless and disk drive technology industries. The current platform of XetaWave radios includes Xeta1 (150-232 MHz), Xeta2 (216-232 MHz), Xeta3 (VHF/UHF 225-380Mhz), Xeta4 (406-512 MHz), and Xeta9 & Xeta9x (902-960 MHz). XetaWave is based in Boulder, Colorado. For more information, visit www.xetawave.com.
