

XTREME Semiconductor, a manufacturer and supplier of obsolete and trailing edge technology products is pleased to announce that XTREME Semiconductor management has completed the purchase PowerTech, Inc. PowerTech has been a premier manufacturer of High Power Silicon Transistor products for the military/aerospace communities for more than 40 years. Visit www.power-tech.com. PowerTech provides military/aerospace and high grade industrial type devices with current ratings from 10 to 2400 amperes and voltage ratings from 60 to 600 volts. All devices feature ultra-low forward voltage drops. PowerTech will continue to operate as PowerTech offering the complete line of High Power Silicon Transistors to the same strict MIL-PRF-19500 quality standards and processes at the existing facility in Fair Lawn New Jersey using the same staff and equipment. Alex Polner, PowerTech's founder, will be available during the transition of the company to XTREME Semiconductor management offering his years of experience and knowledge to ensure a smooth transition. The purchase of all assets, IP, equipment and inventory of PowerTech will allow for a seamless transition in production and support of original PowerTech products ensuring a continued availability and support of these proprietary High Power Transistors.

XTREME Semiconductor is a "solutions" company for obsolete technology Semiconductor products. As a "MIL-PRF-38535 QML certified" manufacturer, XTREME is able to provide complete turnkey re-manufacturing of most military, industrial and commercial grade components. Visit www.xtremesemi.com. Our newest solution in the fight against product obsolescence is our "**Chip Recovery (ChiPR) Product**". This new technology virtually eliminates product obsolescence. Our product obsolescence solutions provide cost effect alternatives for managing of critical microelectronics for support of legacy systems eliminating the high cost of product redesign.

As an industry leader in Counterfeit Product Detection & Avoidance, XTREME Semiconductor also offers our customers "**Certified EOL Product**" providing you with peace of mind and assurance that you receive only authentic OCM material. XTREME Semiconductors unique capabilities and service expertise provides in many cases the only solution for companies facing critical product shortages due to obsolescence. A "life line" is perhaps the best explanation as to how we fit into the supply chain model for many companies.

XTREME Semiconductor management is excited to add the PowerTech product family to our growing portfolio of legacy products and capabilities. We welcome the opportunity to work with you supporting your continued demands for PowerTech products. Please feel free to contact us with any questions that you may have.

Sincerely,

Marty Lanning
