A Powerful Performance Lighting Control System

Zero 88 has been a market leading entertainment lighting control brand for over 40 years. With focus on the unique and specialist needs of the entertainment industry, the Zero 88 product range by Cooper Controls provides dimming, console, networking and software solutions for the ultimate in performance lighting control. Zero 88 products can be found wherever dynamic lighting is required, including integrated theatrical,

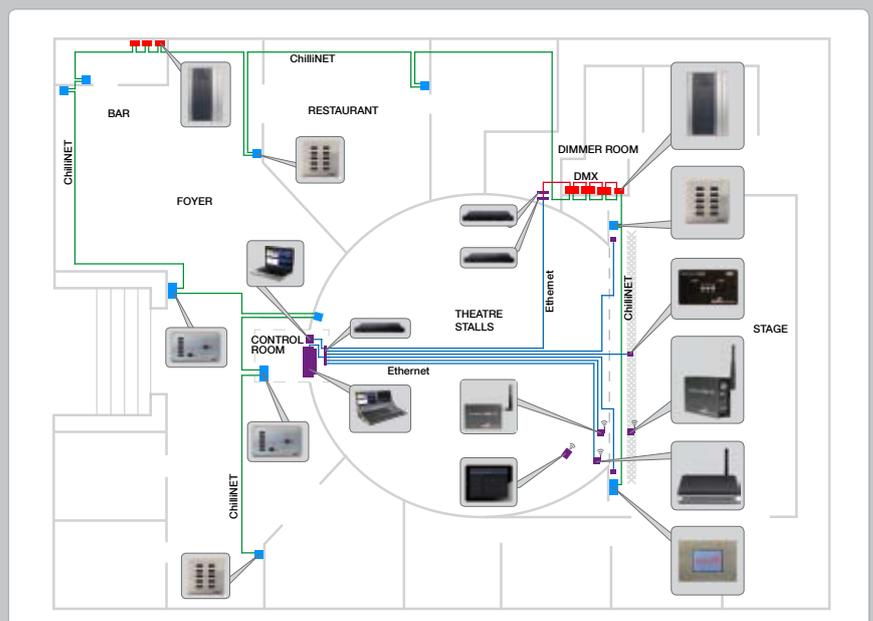

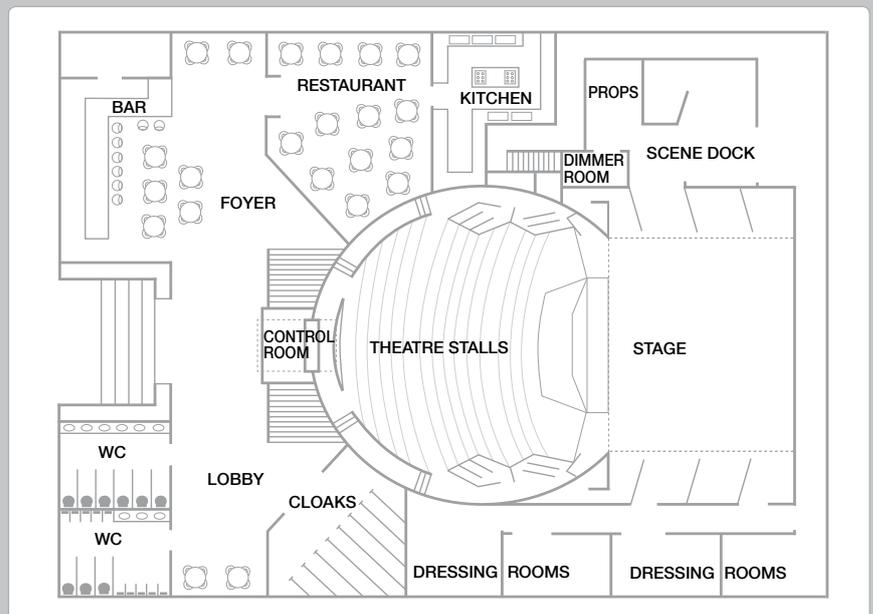

live performance, education, presentation and archtainment applications.

Modern venues also demand great performance from every area of the installation; from the theatre to the auditorium, the bar to the restaurant, the facade to the foyer; now all your spaces can be managed easily and flexibly to paint your venue in the best possible light.

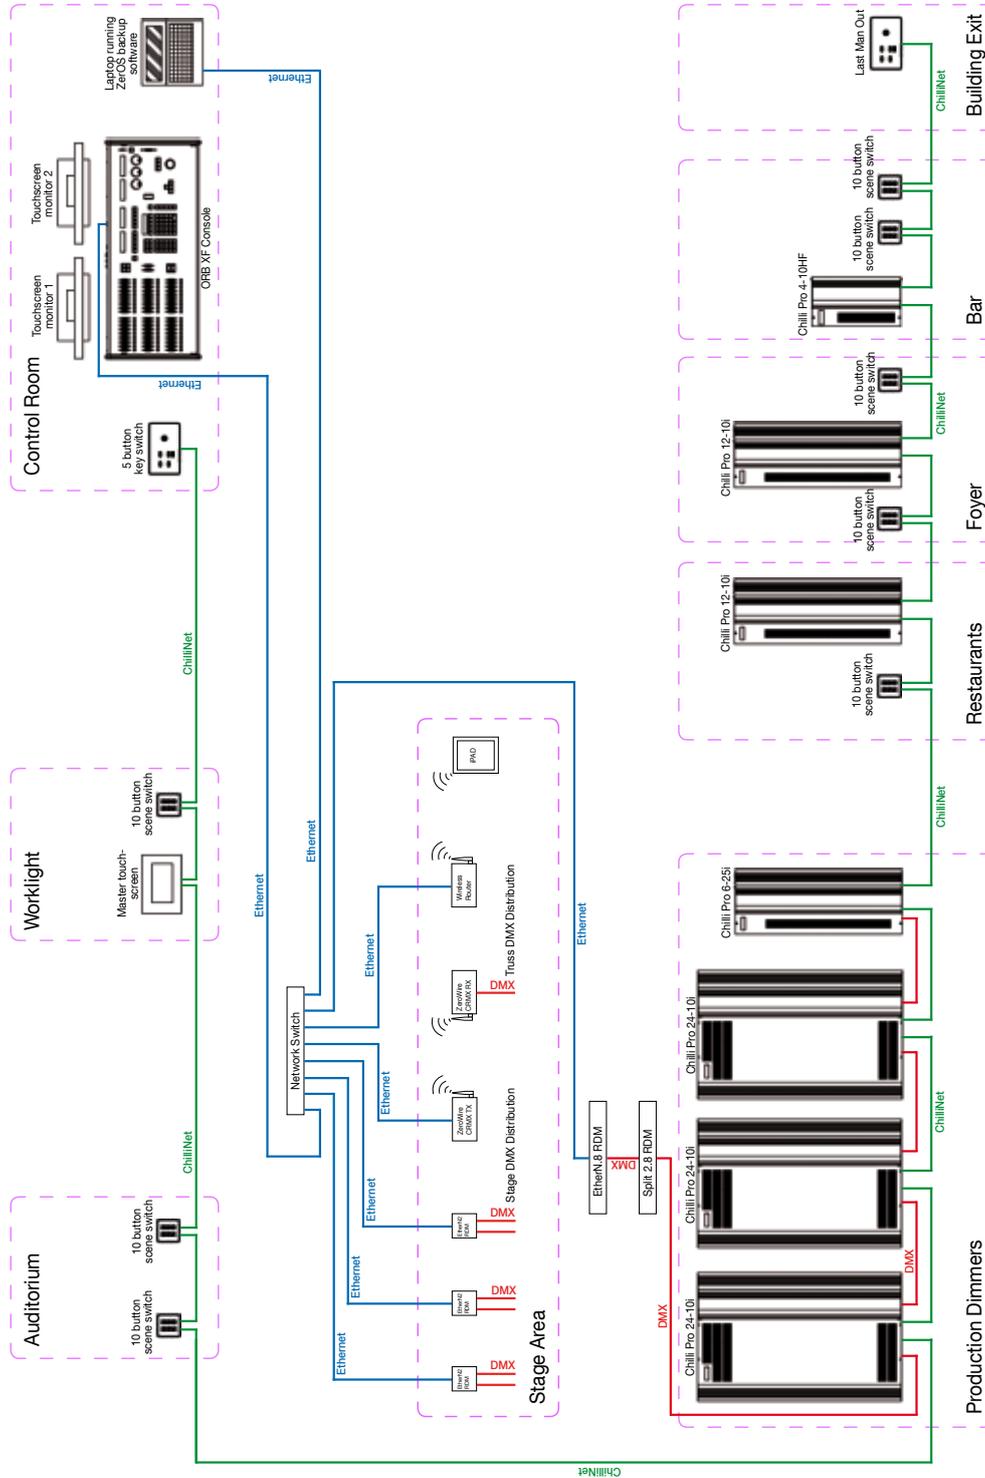

Complete Integration

- ✓ Ethernet networks
- ✓ DMX networks
- ✓ RDM enabled
- ✓ Full intelligent light support
- ✓ Advanced effects generator
- ✓ Full tracking backup
- ✓ Mobile remote options
- ✓ Integrated house light, work light and public areas
- ✓ Integrate with architectural systems, panels and touchpads
- ✓ Online help & training resources
- ✓ Extensive worldwide dealer network

Unlock the potential of all your public spaces

Based on the latest control, dimming, networking and remote user applications, Zero 88 lighting control systems are powerful, flexible, easy to install and intuitive to use.

Lighting Consoles

Zero 88 offer a complete range of Lighting Consoles from simple, easy to use desks with intuitive control, to powerful sophisticated desks with extensive fixture control and effects; wireless remotes, tracking and off-line editor capabilities complete the package. The breadth of the Zero 88 range ensures the right console can be specified for all types of venue whether it be a multi purpose venue, large theatre, presentation suite or drama space.

Installation and Portable Dimmers

Zero 88 provide a comprehensive range of dimmer packages to suite all entertainment and archtainment applications no matter how large or small the venue.

Networked installation dimming systems include fixed and modular formats providing lighting control for the complete venue, including front of house lighting, restaurant, bar, lobby lighting etc.

For portable, touring and rental applications, Zero 88 provide a range of rugged and durable location dimmers with a wide variety of socket types in portable and 19" rack packages.

House Light, Work Light and Public Area Control

Zero 88's ChilliNet lighting network includes a range of intuitive user interfaces providing the connection between the lighting network and the user. Control plates and colour touchscreens can be installed anywhere on the network enabling lighting scenes to be called by the touch of a button. From a welcome scene in a theatre lobby to interval lighting scenes in the auditorium and bar and reception areas. With the extended use of an astronomical time clock, lighting scenes in all areas of the venue can be pre-programmed and activated throughout the day.

Proven operating system including remote apps

With over 8 years of continuous development ZerOS uses Linux and a familiar window based navigation system to allow views to be simply customised according to need, relevance and your personal way of working.

Remote applications are available to run on iPhone, iPod Touch, iPad, Android and Windows Mobile devices for seamless wireless, control of your ZerOS Series lighting consoles.

Network and Data Distribution

Whether its a traditional proscenium arched theatre, a product launch, a live touring show or just an easy way to get DMX to a difficult to reach lighting bar, our scaleable network control equipment brings you the solution you need.

The Zero 88 range of network interface tools include: network distribution, DMX tools and wireless DMX transmitters and receivers, with built in RDM capabilities to allow you to construct individual and robust solutions.

About Cooper Controls

Cooper Controls is a specialist lighting controls manufacturer drawing on more than 40 years of operational expertise in the design, supply and support of lighting control systems in the architectural, entertainment and energy saving markets.

We support our customers through our worldwide specialist team working alongside dedicated, local, distributors to bring you cost effective solutions, consistent high quality and a personal service.

Our focus is to deliver innovation, reliability and flexibility through our portfolio of industry leading brands including Zero 88, iLight, Greengate and ALC.

Service, training and support

Zero 88 is dedicated to customer satisfaction and support. We work hard to build and maintain relationships with our global distribution partners to ensure customers get the very best service and support.

Regular free training, a 24 hour support forum and an extensive web-based support centre ensure our products are supported from specification, to installation and through their lifetime.

- Global presence – local support
- Regular free training Courses
- On-line video training
- 24 hour support forum
- Extensive web based information centre
