MPC7457TRXNXPNS
Rev. 0, 5/2004

MPC7457 Part Number
Specification for the
MPC74x7TRXnnnnNx Series

Motorola Part Numbers Affected:

MC7457TRX1000NC
MC7457TRX733NC
MC7447TRX1000NB
MC7447TRX733NB

This document describes part-number-specific changes to recommended operating conditions and revised electrical specifications, as applicable, from those described in the general *MPC7457 RISC Microprocessor Hardware Specifications* (Order No. MPC7457EC). The MPC7457 and MPC7447 are implementations of the PowerPC™ microprocessor family of reduced instruction set computer (RISC) microprocessors.

Specifications provided in this document supersede those in the *MPC7457 RISC Microprocessor Hardware Specifications*, Rev. 2 or later, for the part numbers listed in Table A only. This document is primarily concerned with the MPC7457; however, unless otherwise noted, all information herein also applies to the MPC7447 part numbers listed in Table A. Specifications not addressed herein are unchanged. Because this document is frequently updated, refer to <http://www.motorola.com/semiconductors> or to your Motorola sales office for the latest version.

Note that headings and table numbers in this document are not consecutively numbered. They are intended to correspond to the heading or table affected in the general hardware specification.

Part numbers addressed in this document are listed in Table A.

Table A. Part Numbers Addressed by this Data Sheet ¹

Motorola Part Number	Operating Conditions			Significant Differences from Hardware Specification
	CPU Frequency (MHz)	V _{DD}	T _j (°C)	
MC7457TRX733NC	733	1.1 V ± 50 mV	-40 to 105	Modified core frequency and voltage to reduce power consumption, modified processor bus AC timing, extended temperature range.
MC7457TRX1000NC	1000			
MC7447TRX733NB	733			
MC7447TRX1000NB	1000			

¹ Operating conditions applicable to full-power mode only. Other modes require different core voltage, junction temperature, and core frequency specifications.

1.11 Ordering Information

1.11.1 Part Numbers Addressed by This Specification

Table 22 provides the ordering information for the MPC7457 parts described in this document.

Table 22. Part Marking Nomenclature

<i>xx</i>	<i>74x7</i>	<i>x</i>	<i>RX</i>	<i>nnnn</i>	<i>x</i>	<i>x</i>
Product Code	Part Identifier	Process Descriptor	Package	Processor Frequency ¹	Application Modifier	Revision Level
MC	7457	T: -40 to 105°C	RX = CBGA	1000	N: 1.1 V ± 50 mV	C: 1.2: PVR = 8002 0102
				733		
MC	7447	T: -40 to 105°C	RX = CBGA	1000	N: 1.1 V ± 50 mV	B: 1.1: PVR = 8002 0101
				733		

Notes:

1. Processor core frequencies supported by parts addressed by this specification only. Parts addressed by other specifications may support other maximum core frequencies.

1.11.3 Part Marking

Parts are marked as the example shown in Figure 29.

Notes:

- MMMMMM is the 6-digit mask number.
- ATWLYYWWA is the traceability code.
- CCCCC is the country of assembly. This space is left blank if parts are assembled in the United States.

Information in this document is provided solely to enable system and software implementers to use Motorola products. There are no express or implied copyright licenses granted hereunder to design or fabricate any integrated circuits or integrated circuits based on the information in this document.

Motorola reserves the right to make changes without further notice to any products herein.

Motorola makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does Motorola assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation consequential or incidental damages. "Typical" parameters which may be provided in Motorola data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. Motorola does not convey any license under its patent rights nor the rights of others. Motorola products are not designed, intended, or authorized for use as components in systems intended for surgical implant into the body, or other applications intended to support or sustain life, or for any other application in which the failure of the Motorola product could create a situation where personal injury or death may occur. Should Buyer purchase or use Motorola products for any such unintended or unauthorized application, Buyer shall indemnify and hold Motorola and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Motorola was negligent regarding the design or manufacture of the part.

Motorola and the Stylized M Logo are registered in the U.S. Patent and Trademark Office. digital dna is a trademark of Motorola, Inc. The described product is a PowerPC microprocessor. The PowerPC name is a trademark of IBM Corp. and used under license. All other product or service names are the property of their respective owners. Motorola, Inc. is an Equal Opportunity/Affirmative Action Employer.
