*Accessories for 15 mm DIN rail mount mini terminal blocks by type.

MT Marking Tags

Give a professional look to every job, large or small, standard or special with Altech's comprehensive Marking System. Marked terminal blocks increase wiring efficiency, save installation time and make wire hook-up, system modifications and troubleshooting quick and easy. Push-on tags are available to fit most DIN rail mount and panel mount terminal blocks. They can be inserted individually or in strips of ten to speed installation. Standard tags are white with black imprint, marked consecutively or with identical numbers, horizontal (H) or vertical (V). Refer to Table I on page 365 to determine which tag can be used on each terminal block type. A package contains 10 strips of 10 tags.
