### DSF, Subminiature, Polyester Metallized, Radial Leads

**— NEW —**

Type DSF film capacitors are made with stacked metallized polyester, resulting in high volumetric efficiency and a very economical solution for general purpose DC applications. Ideally suited for blocking, by-pass, coupling, decoupling, and filtering circuits. Specifically designed for applications where high density insertion of components is required. **Operating Temperature:** -40°C to +85°C. **Rated Voltage:** 50-100 Vdc. **Capacitance:** 0.1 μF to 2.2 μF. **Capacitance Tolerance:** ±5%. **Dielectric Strength:** 150%. **Dissipation Factor:** 1% max. **Insulation Resistance:** 3,000 MΩ min. **xPF:** 1000 M min. **Life Test:** 1000 hours @ 85°C, 125% rated voltage.
