Test Companion™ Test Kits

Pomona's original Test Companion™ kits are supplied in durable Cordura carrying cases and tri-fold pouches, ready for finger-tip access whether carried on your shoulder or carried in your tool box. Extra compartments carry other tools, schematics, handbooks and anything else you may need in the lab, the field or the plant. Select from Pomona's newest bench DMM and oscilloscope Test Companion™ kits. Each kit contains an assortment of accessories specifically selected to work with your instrument. They are provided in durable Cordura carrying cases featuring handy zippered compartments for kit contents and more. Compact yet spacious, they strap-on quickly providing a total storage compartment for bench meter or scope test accessories and handbooks.
